Spring Band Concert: Scintillating Soundtracks

By Bev Clifford

The new year with its promise has also brought us newscasts that make us want to pull the covers over our heads and burrow in for the day. But personally, I'm planning a "Great Escape" by heading to Cribari Auditorium on Sunday, March 18 at 2:30 p.m. for an afternoon of our Villages Concert Band's uplifting music. You can purchase open seating tickets for \$15 in the Cribari lobby on Saturdays March 10 and 17.

"Strike Up the Band," by George Gershwin, is part of a Broadway musical satire on war and militaristic music. "The Best of All Possible Worlds," a song from The Candide Suite by Leonard Bernstein, will be conducted by our special guest José Rivera. Naomi and Fiona Sun will also perform, Naomi soloing on harp with Impromptu-Caprice by Gabrielle Pierné, and both in a marimba duet of two J. S. Bach Inventions: D Minor and B Major.

The program continues with the "James Bond Suite," including the "James Bond Theme," "Live and Let Die," "For Your Eyes Only," and "Goldfinger."

John Williams' "Fantasy of Flight" features "Adventures on Earth," "Hedwig's Theme," "Duel of the Fates," and "Star Wars (Main Title)."

'March Madness' Crafters Sale is March 24!

The Villages Crafters are preparing for March Madness—their first event as a sanctioned Villages club. It takes place on March 24 at the Vineyard Center from 10 a.m. to 2 p.m.

This is an opportunity for Villagers to view and purchase fine handmade craft items such as Laurie Truman's creative and sometimes zany ceramics, Marilyn Murata's popular collages and origami cards, Diane Goodrich's poetry cards, Mary Wollesen's famous tote bags, Mary LeGrand's succulent gardens and so much more. Several crafters will have their distinctive jewelry on display.

Prices are very reasonable. Quality is top-notch. This is a perfect time to get gifts. And, this is your opportunity to support the "new Boutique"—a group of crafters who made the Boutique successful for 20 years.

Barbara Osborne, Director of the Villages Crafters, said, "While

Rod Diridon to speak at SIR #114 luncheon

On Tuesday, April 3, Rod Diridon Sr. will be the guest speaker at the SIR #114 luncheon in the Fairway Room at the Clubhouse.

Rod is known as the father of modern transportation in Silicon Valley and has chaired more than 100 international, national, state, and local programs mostly related to transit and the environment.

Nearly every day the Mercury News highlights the new transit opportunity in San Jose and the future Diridon station, named after Rod, will be the hub. That station is expected to become the Google Station of the West. The station and the surrounding area is the hottest real estate and city-building opportunity west of the Mississippi.

Transit-oriented development makes sense and Google is being innovative in placing workers near this future San Jose transit hub.

From 1993 to 2014, Rod was executive director of the Mineta Transportation Institute (MTI), a transportation policy research center created by Congress.

Non-SIR members are invited to attend the presentation and should arrive at the Clubhouse around 12:30 p.m.

Filoli Gardens and Stanford Shopping Center

Here is your chance to bring a friend or neighbor of yours and come on a trip to one of the most beautiful places in the Bay Area. The day is planned for Wednesday, March 28. We will depart the Villages from the Cribari East parking lot at 8:30 a.m. with an estimated return time of 6 p.m. The cost will be \$68 per person; cost includes admission, docents and transportation. Register for this special outing in the Community Resource Center, Building B.

Upon arrival at Filoli we will be split into four groups and met

COMMUNITY NEWS

PULSE

Dear Readers: The Villager welcomes everyone's voice sharing ideas, opinions and accounts of life in The Villages in the Pulse column. Please follow the guidelines carefully.

Pulse deadline is 11 a.m. on Friday of the week prior to publication.

Pulse letters will be published in complete or abridged form at the discretion of the Publisher and in accordance with the editorial policies and rules established by the Club Board of Directors. (See VGCC Rule 1.30.) Opinions expressed by Pulse letter authors do not necessarily reflect the opinions of The Villager Publisher, staff, boards of directors or management.

All Pulse letters must be 200 words or fewer on a single topic relating to life in the Villages. Each letter must also include name, address, phone number, date and number of words.

Typed or legibly written letters must include your signature and may be hand delivered to the Pulse mailbox in Administration Building B or by mailing to the Communications Advisory Committee, 5000 Cribari Lane, San Jose, CA 95135.

E-mailed letters must include the text within the body of the e-mail and the subject line must read PULSE LETTER. Submit to: shinrichs@the-villages.com.

2 Pulse letters received this week.

1 Pulse letters not meeting Pulse Letter Guidelines.

1 Pulse letters published this week.

I would encourage everyone to attend an Open Mic Night for an enjoyable evening witnessing the talent of our fellow Villagers.

However, I was very disappointed when friends and I attended the last Open Mic Night due to the people in the audience who talked throughout the performances. I came to hear and appreciate the singers and other performers who were there to entertain us.

Talking while someone has the "mic" is rude and greatly infringes on the ability of others to enjoy the evening. Socializing is great, but please, not during the performances.

Thank you.

—Janet Fahrner

Attention Pulse authors!

When you write your Pulse letters, don't forget to:

- Include your name, address and telephone number at the end of your letter. Your contact information is important in case the Communications Committee members have questions or need to verify your identity.

- Sign your letter if you are bringing a paper copy to the Pulse mailbox in Building B.

- Put the word count of the letter at the end of the letter—Remember, it's 200 words or fewer.

- Put "PULSE" in the subject line of your e-mail if you are sending it in electronically. (E-mail your Pulse letters to: shinrichs@the-villages.com)

Forgetting to follow the Pulse guidelines may result in your letter being delayed.

Note: The Communications Committee is now verifying the authorship of submitted Pulse letters. If a Pulse Letter is dropped off in Building B, we will call the author to make sure that person wrote and submitted the letter. If we cannot reach that person we will hold the letter until we can reach them. This means we may reject the letter for a week or more if we are unable to verify the authorship.

Get in the Fast Lane! Missed your Villager?

Fast Lane is the Villages e-mail information blast. To sign up or get more information, contact Communications Coordinator Ken Patterson at 223-4681; kpatterson@the-villages.com, or go to Building B to sign up in person.

BOARDS & COMMITTEES

FROM THE HOMEOWNERS' CORPORATION

Homeowners' Corporation Directors Election 2018

Want to make a difference in your community? The Homeowners' Corporation (HOC) Board of Directors is looking for you. Serving on the HOC is a rewarding and interesting activity that makes you feel a vital part of the community. You get to know your neighbors and you can make a difference in their enjoyment of Village life.

The Villages Homeowners' Corporation mission statement reads "The Homeowners' Board of Directors manages and regulates the use and enjoyment of the Homeowner Development in accordance with the governing documents and the law, and in a manner that preserves, protects, and enhances homeowner property." The bylaws of the Homeowners' Corporation provide that there will be five directors serving on the board. With the terms of Julian Rodriguez and Greg Stewart expiring in June (both are eligible to serve again), the Homeowners' Corporation Board will have two director vacancies.

Not ready to make the leap to serving on the board, but interested in getting involved, the board recommends you consider service on the HOC's Architectural Control Committee (ACC). Service on this committee gives you the opportunity to become familiar with the four Villages containing single-family homes and assist your neighbors as they upgrade their homes to meet their particular needs and life style. To have a chance to serve on this committee all you have to do is apply to Committee Chair Ron Steckel and Ron will review your request and bring it to the HOC Board for approval. Four of the current members of the HOC Board all served on the ACC before becoming board directors.

If you would like to find out more about serving on the Homeowners' Corporation Board of Directors and/or the Architectural Control Committee, please contact any current board member, President Teddy Morse, 408-394-5229; Vice President Julian Rodriguez, 408-532-9070; Secretary Greg Stewart, 408-531-1029; Chief Financial Officer Mike Kane, or Assistant CFO/ACC Liaison Jeannie Omel, 408-238-5157.

FROM THE CLUB NOMINATING COMMITTEE

Club Board candidate interviews start in March

Candidate interviews start in March. If you are considering running for the Club Board, now is the time to schedule your interview. Current and former board members do not need to interview. However, the Nominating Committee report of candidates is scheduled for the April 17 board meeting, so declaring your candidacy to the Nominating Committee soon is advised.

The Club governing documents provide that there shall be seven directors, and election will be held during May and June for three director positions to serve three-year terms. The Club Board is responsible for the management of Club operations including—but not limited to—all recreational, social, and cultural events in operation at the Villages, maintenance of the streets, the community centers and adjoining swimming pools, the Clubhouse/Pro Shop complex, the two golf courses, and tennis courts.

It's a rewarding experience to participate in the governance of this vibrant community. The Nominating Committee urges all Villages' property owners to consider involvement in community decisions through service on the Villages Golf and Country Club Board of Directors.

If you are interested in being a candidate, and/or need additional information, please contact the Club Nominating Committee Members: Nancy Fodor, 408-528-0476; Rick Jiloty, 408-528-8116; Tom McLaughlin, 408-531-8874; Teddy Morse, 408-394-5229; Peggine Romanow, 408-528-8732.

It's spring clean-up time

Spring is in the air—most of the rain is behind us and the weather is generally sunny and dry. This makes it the perfect time to inspect your property for wear and tear. Take some time to walk around your property and inspect everything with a critical eye. How is your house paint holding up? Is it faded? Look at your landscape to make sure shrubs are healthy, attractive and free of fallen leaves and debris. Walk along your fence (inside and outside) to make sure that your fence is in good state of repair and that the paint is still holding up and attractive in appearance.

Not only does maintaining your property bring a sense of pride, it is your responsibility to maintain your home and landscaping in a manner that presents a neat and attractive appearance according to Homeowners' Rule 3.7.6. Be aware that an Architectural Control Committee application may be necessary for some spring cleanup activities including exterior house and fence painting and the replacement of landscaping, fencing, etc. It's best to check with Architectural Control Committee (ACC) Administrator Elissa Caruso at 754-1344 or ECaruso@the-villages.com to make sure you are in compliance with the rules. Remember, spring clean-up is one of those chores you can only feel great about when it's done!

Attention Condominium Owners:

All solar installations on condominium roofs require Association Board approval. Please contact Elissa Caruso, AC Administrator, at 408-754-1344 to start the process. Solar panels installed without approval will be removed at owner's expense.

Alcohol and Licensed Facilities

This subject comes up from time to time as members and residents test the license restrictions' operating parameters imposed by California's Department of Alcohol Beverage Control (ABC) on all licensed facilities. All Club centers are licensed, which includes the Bistro Patio, golf course and Gazebo Park. This means no alcohol can be brought onto and subsequently consumed at these facilities—all alcohol that is consumed must be sold and supervised by the licensee (the Club).

Other than at the Clubhouse complex (including the golf course) and Cribari Center, which generally restrict outside alcohol (corkage fees apply at the Clubhouse complex), there are ways to permit the unsupervised consumption of alcohol (e.g. Foothill, Vineyard, Montgomery, Gazebo Park). This can be done when the Club suspends its license for a specific period of time (such as a day). In these cases however; members and residents may not sell alcohol (just consume it). Forms must be completed and filed with ABC should you wish to have an event with alcohol at one of the centers that permits it. If a group or organization wishes to sell alcohol, a day permit must be obtained from the ABC. For questions about this subject, feel free to contact the Community Activities Office.

SENIOR RESOURCE SERVICES

Partial payment of property tax

Question: I cannot pay my entire property tax payment due April 10, 2018. Should I go ahead and send them a partial payment?

Answer: Yes! Pay the amount that you can.

Prior to 2017, the County returned any amount that was less than the full amount stated on the first and/or second installment tax bills. The taxpayer would subsequently be assessed a 10 percent penalty, plus any applicable fees and charges, on the full amount of the delinquent tax bill.

Today, the County is kinder and gentler. The County accepts partial payment and only the unpaid amount on the first and second installment bills will be treated as delinquent tax on December 10 and April 10 of each year. The County will add a 10 percent penalty and applicable costs only to any unpaid tax amounts on the delinquency dates.

You can pay the remainder in any number of payments and can pay online at taxpayment.sccdta.org. The amount due for the first installment must be paid in full before the Department will apply any payments to the second installment. The entire amount must be paid by June 30, the end of the county's fiscal year, or additional rules and penalties will apply.

If your payment is less than the amount due on the installment, you will receive a Balance Due Statement. On the Property Tax website there is a field displayed as “Amount Paid to Date” that will show the total payments made to date.

Note: The Senior Resource Services (SRS) office hours for drop-in assistance are Monday, Wednesday and Friday from 10 a.m. to noon. The SRS office is in the Cribari Center across from the Post Office. You may also leave a message at 408-239-5253. The purpose of SRS is to provide education and general business and financial information. All assistance is free and confidential. You should ask your professional adviser about your individual situation.

SRS Notice:

March 23 Evergreen tax exemption filing

If you do not have an exemption from the annual \$100 Evergreen School District parcel tax, you may file for the exemption on March 23 in the Forum Room at Cribari Center from 1:30 to 4 p.m. Complete information about the exemption was in the SRS article in the March 1 Villager. The Villager is available online at edition.thevillagesgcc.com if you can't find your copy.

Don't forget to bring your property tax bill and your driver's license or other identification proving your age.

If you are not sure if you have the exemption, the School District will have a list to check your exemption status.

APo 408 Smoke Detectors Installation, Maintenance, Repair and Replacement

OBJECTIVE:

Define owners' and residents' responsibility for installation, maintenance, repair and replacement of smoke detectors in their villas.

GOVERNING DOCUMENTS / LEGAL REQUIREMENTS:

Section 9.4.3 of the Association's Amended and Restated Covenants, Conditions and Restrictions, San Jose Municipal Code, Title 24.03, which incorporates California Building Code (CBC) into city municipal code, CBC 310.9 and California Health and Safety Code 13113.7

POLICY:

All interior smoke detectors, hardwired or battery operated, that exclusively serve a villa shall be installed, maintained, repaired and/or replaced as needed by the owner of the villa, in accordance with this policy.

LIMITATIONS:

None.

IMPLEMENTATION PROCEDURES:

Refer to APr 408.

This document sets forth the procedure to be followed to ensure the proper installation, maintenance and replacement of smoke detectors throughout the Association villas.

1. All villas must be equipped with smoke detectors that are installed according to current California (Health & Safety § 13113.7) and California (Building § 310.0) codes.

2. Each owner is required to inspect (or have inspected by a third party) his/her villa on an annual basis to ensure their detector(s) are in working order. A "Statement of Compliance" that the detectors in their unit are in working order must be signed by the owner.

Because most smoke detectors have a limited life, replacement of smoke detectors are required every ten years. This is recommended by the National Fire Protection Association.

Existence of the A Statement of Compliance shall be demonstrated every two years by including a copy of the document in the bi-annual Survey of Resident Occupant's age that is required by Villages Association Rule 2.01 which ensures compliance with California Civil Code 51.3 form will be sent to the homeowner annually, enclosed in a monthly billing. The Statement, confirming that the smoke detectors in their unit are in working order, shall be signed and returned to the Villages Association, 5000 Cribari Lane, San Jose, CA 95135.

3. Upon the transfer of each villa whether by sale or rental, the number and location of smoke detectors must be brought up to city and state code. A "Statement of Compliance" that the detectors are in working order and the unit meets current code must be signed by the selling or leasing owner. The Statement of Compliance will be required before such transfer can take place and before a gate entry bar code is authorized.

4. Renters are responsible for testing their smoke detectors and notifying owners when smoke detectors are not in working condition or are missing. Upon notification, the owner has fifteen (15) days to repair or replace the non-functioning or missing smoke detector as noted in paragraphs one through three above. If the owner does not respond accordingly, the renter shall notify the Community Standards Administrator.

5. Twice each year, at daylight savings time change, *The Villager* shall publish a reminder to "test your smoke detector(s)" in four successive issues.

6. Each calendar year, the Community Standards Administrator, on behalf of the Association, shall conduct a random audit of ten (10) percent of the villas by scheduling an inspection with residents of those villas. The audit is to ensure the presence and working function of smoke detectors.

See music legend Yanni in San Jose!

Yanni is on his 25 Acropolis Anniversary Concert Tour 2018 and performs concerts across North America and San Jose is one of his stops! The Community Activities office has been able to procure tickets for dress circle on the lower side for Wednesday, June 6, for an 8 p.m. performance at City National Civic. The cost for this outing that includes wonderful seats and transportation is \$159. Please arrive at 6:15 p.m. at the Patio Room to pick up your ticket(s). Departure will be at 6:45 p.m. with estimated return time of 10:30 p.m. Only 40 tickets available; register in the Community Resource Center, Building B.

One of the greatest new age musicians of all times, Yanni was a self-taught artist who continues to push the boundaries of music. Born in Greece, Yanni became an American citizen. He traveled extensively and used his world experience to create complex and multi-cultural music. He has performed in restrictively exclusive venues like the Taj Mahal and the Acropolis of Athens. His creative and unique approach to music led him to develop his own musical shorthand when he was a child; he still uses it for his compositions. His long creative partnership with PBS proved that he is also effective at fundraising, and has raised millions of dollars to fund his own and other broadcast events. In addition to producing, directing and performing in his own orchestra, he also lends his charitable fundraising efforts to the World Wildlife Fund to promote the conservation of endangered species. As a keyboardist, composer and musician, he has received two Grammy nominations. Although his music is consistently labeled and enjoyed as a great example of the popular new age genre, he famously defies genre definitions and makes unique orchestral music that embodies his international repute.

This is Yanni as you know him best, performing his instrumental hits from shows that have become famous around the world. You will witness Yanni and his world-class musicians as they take the stage to perform his greatest instrumental hits made famous in his shows from the Acropolis in Greece, the Taj Mahal in India, the Forbidden City in China and the Royal Albert Hall in England.

Yanni's orchestra is a truly unique collection of musicians. Yanni has handpicked each member of his orchestra and has been in search for the world's top performers to bring you what you see today.

Upcoming Evening Movie

The following movie is shown free of charge at **Vineyard Center at 7 p.m.** on the dates and times designated. For additional information, please contact the Community Activities office.

FOUNDATION FOCUS

A Sad Farewell!

By Vivian Brown, President of Evergreen Villages Foundation

The Evergreen Villages Foundation (EVF) and the Villages residents owe a debt of gratitude to the late Ginny Fanelli for her financial support and her tireless work on behalf of the community and the Foundation. If you read her obituary in the Villager, you learned how involved she was in the community before moving to The Villages. At the Villages she served as President of the Club Board, on the Marketing committee and on The Evergreen Villages Foundation Board. When she had to resign from our Board, due to her illness, she stayed on as a member of the Foundation's Advisory Committee. She was a great mentor to me and the members of the Foundation Board. She approached decisions with her personal expertise, a view of what would be best for the community and with a positive caring attitude.

Ginny Fanelli

Ginny had a vision to enhance and constantly improve the Villages community, which she achieved by her work on the various boards and committees she served on and through her generous, annual donations. She has been a "Gold" level donor to the Foundation for many years. As one of her last gestures, she named the Foundation as a recipient of her IRA, placing her in the Foundation's Gertrude Greuner Heritage Circle of Giving. Her gift will be used to support projects that enhance the community. Ginny will be truly missed as a friend and will long be remembered as a major contributor to our community.

From Ginny's son, Steve Falden: "My mother was both a giver and a visionary. She saw potential where it might not be self-evident. Once she set her sights on an opportunity to improve the world around her, she could be relentless in seeing that opportunity through to fruition. She would pour her time, energy and resources into these efforts. In the Evergreen Foundation, she found the perfect forum to help make her home, The Villages, a better place for all. It was a point of pride with her to not only contribute her talents, but also make an annual financial gift to the Foundation. As her son, and financial adviser, I am pleased, too, that we included the Foundation in her legacy gifting. What a great honor it is to know my mother has made a lasting difference in the lives of everyone in The Villages community."

The Foundation's annual meeting will be on April 11, in the Patio Room from 3:30 to 5:30 p.m. All are welcome to attend.

The Foundation's annual meeting will be held on April 11 from 3:30 to 5:30 p.m. in the Patio Room. All residents are welcome to attend.

Proposed Changes to The Villages Association Smoke Alarm and Carbon Monoxide Alarm Requirements, Rules, and Policies

Proposed changes to The Villages Association Rule 2.26 Smoke Alarm and Carbon Monoxide Alarm Requirements, and Policies APo and APr 408 Smoke Detectors Installation, Maintenance, Repair and Replacement, and APo and APr 410 Carbon Monoxide Detectors were conditionally approved by the Association Board of Directors at its February 27, 2018, monthly meeting. However, before formal approval consideration, the proposed changes must be noticed and published 30 days as required by California Civil Code 4360. The proposed changes will be considered for formal approval at the April 24, 2018, monthly meeting.

The Board will consider oral and written comments regarding the proposed changes at the April 24, 2018 study session (9:15 a.m. at the Clubhouse). Response to the proposed policy changes may be made by one or more of the following methods: 1) Participation in the discussion of the change at the Association Board of Directors study session at which the proposed rule change will be considered, 2) via e-mail with comments sent to the Board via mehernandez@the-villages.com, 3) via written comments delivered to the Board through the Association Operations Manager Maria Hernandez.

The purpose of the proposed changes is to reflect current practice that Statements of Compliance per the rule and policies are not demonstrated with the bi-annual age certification. The committee is proposing that the Statements of Compliance be demonstrated annually.

Deletions are noted in strikethrough font, and additions are underlined.

Association Rule 2.26 Smoke Alarm and Carbon Monoxide Alarm Requirements

1. Installation Requirements

A. Smoke Alarms

All villas must be equipped with smoke alarms that are installed according to the California Health and Safety Code and California Building Code.

B. Carbon Monoxide Alarms

All villas must be equipped with carbon monoxide (CO) alarms that are installed according to the current California Health and Safety Code.

The National Fire Protection Association (NFPA) Code 720, Standard for the installation of carbon monoxide alarms, states "CO detectors shall be installed outside of each separate dwelling unit's sleeping area in the immediate vicinity of the bedrooms" and "on every level of a dwelling unit that is occupied."

2. Maintenance Requirements

A. Each owner or renter is required to test (or have tested by a third party) his/her villa on an annual basis to ensure their smoke alarm/s and carbon monoxide (CO) alarm/s are in working order. Because (CO) alarms have a limited life, replacement of (CO) alarms is required every five (5) years.

B. A "Statement of Compliance" form that all alarms in their unit are in working order will be sent to the homeowner annually, enclosed in a monthly billing. The Statement shall be signed and returned to the Villages Association, 5000 Cribari Lane, San Jose, CA 95135, must be signed by the owner. Existence of the Statement of Compliance shall be demonstrated every two years by including a copy of the document with the bi-annual Resident Age Survey required by Villages Association Rule 2.01, which ensures compliance with California Civil Code 51-3.

C. When smoke alarms or carbon monoxide (CO) alarms are not in working condition or are missing, renters are responsible for notifying owners in writing with a copy to the Community Standards Administrator. Upon notification, the owner has fifteen (15) days to repair or replace the non-functioning or missing alarms. If the owner does not respond accordingly, the renter shall notify the Community Standards Administrator who will take formal enforcement action.

D. Upon the transfer of each villa by sale or rental, the number and location of smoke alarms and carbon monoxide (CO) alarms must be brought up to city and state code. A "Statement of Compliance" that the alarms are in working order and the unit meets current code must be signed by the selling or leasing owner. The Statement of Compliance will be required before such transfer can be approved and before a gate entry bar code is authorized.

APo 410 Carbon Monoxide (CO) Detectors

OBJECTIVE:

Define owners' and residents' responsibility for installation, maintenance, repair and replacement of carbon monoxide (CO) detectors in their villas.

BACKGROUND:

CO is the leading cause of accidental poisoning deaths in the United States. CO is a colorless, odorless, deadly gas. The most effective safety device available to reduce injuries and fatalities related to CO poisoning is a CO detector. California Senate Bill 183, signed into law May 7, 2010, requires that a CO detector be installed in existing dwellings intended for human occupancy that have fossil fuel burning appliances (such as a gas range or oven), fireplace or an attached garage.

CLUBS & EVENTS

March Artist of the Month: *Joyce DeMattei*

By Ruth Keiser

A colorful macaw created by Joyce DeMattei was the winning entry in the March Artist of the Month contest. This well-crafted adaptation of a design by Katherine Molineaux was voted as the winner by those who attended the monthly meeting of the Villages Arts and Crafts Association.

Joyce stitched this amazing needlepoint piece, titled "Amazon Parrot," using a technique called thread painting. She used textured stitches in varying shades of green for the leaves in the background. The parrot's feathers were stitched in various shades of red and yellow silk thread. Joyce used several needles threaded with different shades of the same thread hue to resemble feathers, create shading and add texture.

Joyce was taught to embroider at age 11 by her mother. She has continued to enjoy many forms of stitchery off and on for over 60 years. She is a member of two national stitchery associations—the American Needlepoint Guild (ANG) and the Embroiderer's Guild of America (EGA). She is most actively involved with the Bay Area Chapters but she does attend some nationally organized seminars. On Monday afternoons, Joyce can be found stitching in the Patio Room with the Villages Stitchery and Knitting Group.

When asked how she would describe the stitching experience, she said, "The whole process of creation is more important than the results. It's the entire process of planning the design, selecting and locating the necessary threads and developing the complete artistic plan that is intriguing." She commented that it is like traveling. "The journey is as important as the destination because of the experiences along the way."

Congratulations to Joyce and a thank you to all the wonderful artists who create here in The Villages and share their talent with us all!

Learn photo tips: bears to hummingbirds

By Pam Pierson

Brown bears, bald eagles, and hummingbirds—Joan Sparks will share images and expertise from her photo journeys to Alaska with National Geographic photographers on Monday, March 19, from 7 to 9 p.m. in the Cribari Conference Room. She also provides tips on photographing local hummingbirds for the Villages Camera Club (VCC) and guests.

The VCC invites Villagers to attend the program to learn about camera gear, clothing, and photographic techniques. After you attend one program as a guest, please join the club for \$30 to pay for judges and presenters. Contact Ray Blinde at 408-531-1776 or rwblinde@earthlink.net.

"Photography has given me an opportunity to explore a creative curiosity that I crave," said Sparks. "The solace that I've discovered in the wilderness is soothing, as well as, inspirational. I have found it profoundly intriguing and challenging to capture exceptional moments in time and thoroughly enjoy sharing that sense of wonder."

Sparks' nature photography has been shown at Filoli, the California Coastal Commission, and various other organizations around the Bay Area. She is published in *Birds and Bloom Magazine* and several local newspapers. She is a past president of several of the local photo clubs and has served on the Silicon Valley Open Studios Board of Directors for several years.

With no formal education in photography, Sparks was invited by a friend several years ago to shoot brown bears in Alaska and then in the Amazon with his six National Geographic Photographer friends. "Having the opportunity to be with such talented photographers raised the bar exponentially for me," remarked Sparks.

The Villages Camera Club (VCC) is a member of the Northern California Council of Camera Clubs (N4C) and The Photographic Society of America (PSA). For details of our activities and competitions see the Calendar of Events (under activities) from the main menu at the website: www.villagescameraclub.com

Senior Academy: 'The Struggle for Ireland's Independence'

Ireland was England's first and longest-held colonial possession. The dramatic story of how the Irish endured military defeat, land confiscation, economic and political suppression, religious discrimination and impoverishment to gain their independence will be the focus of a two-session course at the Vineyard Center at 2 p.m. on successive Tuesdays, March 20 and 27. The course will explore Ireland's long and complex relationship with England, the enduring struggle for Irish independence, and the nature and limits of its eventual achievement.

Teaching the course will be Dr. Tim O'Keefe, Professor Emeritus in History from Santa Clara University, whose heritage has given him a special interest in the history of Ireland. The Brutacao Award for Teaching Excellence, the David Logothetti Teaching Award, and the President's Special Recognition Award are among his many honors.

Advance registration is required for this course. The cost is \$25 for Senior Academy members and \$30 for non-members. To register, contact Bev Murphy at 408-613-2499 or Jean Hinman at 408-238-0575 or sign up online on the Senior Academy's "Reggie" website.

Hiking Club: 'Signs of the Times'

All those who hike our Hill Trails are well aware that much of the trail signage is in disrepair. Some have fallen over, others are pointing in the wrong direction and others are just hiding in obscure places so they're hard to find. John Trudeau and his committee have been researching this problem and have come up with a number of ways to repair them. Find out more when John gives a presentation telling us what his research has uncovered and what his recommendations are at our next Hiking Club meeting on Monday, March 26 at Foothill Center. Come join us and let us know your thoughts and ideas. John's presentation will begin after a short business meeting starting at 7:30 p.m. Light refreshments will be served. All Villagers are welcome to attend.

FROM THE BOOKSHELF

“The River of Consciousness” by Oliver Sacks: Sacks is known for illuminating case histories about people living with neurological conditions at the far borderlands of human experience. He takes on evolution, botany, chemistry, medicine, neuroscience, and the arts, and calls upon Darwin, Freud, and William James. For Sacks, these thinkers were constant companions from an early age. Sacks has the ability to make unexpected connections, his sheer joy in knowledge, and his unceasing, timeless endeavor to understand what makes us human. He has an impressive CV. 612.8 1. Consciousness. 2. Neuropsychology. 2017

“Enchantress of Numbers” by Jennifer Chiaverini: The only legitimate child of the Romantic poet Lord Byron, Ada Lovelace was destined for fame. Estranged from Ada’s father, Ada’s mathematician mother is determined to save her child from her perilous Byron heritage and provides her daughter with an education grounded in mathematics and science. When Ada is introduced into London society, she discovers the intellectual and social circles she has craved. Ada resolves to help Babbage realize his vision of calculating machines, understanding how his invention could transform the world. Fiction. 2017. Large Print

“Killers of The Flower Moon” by David Grann: In the 1920s, the richest people per capita in the world were members of the Osage Indian nation in Oklahoma. After oil was discovered beneath their land, they rode in chauffeured automobiles, built mansions, and sent their children to study in Europe. Then, one by one, the Osage began to be killed off. The family of an Osage woman, Mollie Burkhart, became a prime target. Her relatives were shot and poisoned. And it was just the beginning, as more and more members of the tribe began to die under suspicious circumstances. Grann revisits a shocking series of crimes in which dozens of people were murdered in cold blood. Based on years of research and startling new evidence, the book is a masterpiece of narrative nonfiction, as each step in the investigation reveals a series of sinister secrets and reversals. But more than that, it is a searing indictment and prejudice toward American Indians that allowed the murderers to operate with impunity for so long. 976.6. Osage Indians. 2017. “The Alice Network” by Kate Quinn: 1947. Charlie St. Clair is pregnant, unmarried, and on the verge of being thrown out of her proper American family. To get to the people at the top, Bosch must risk everything and go undercover in the shadowy world of organized crime and pill mills. Tense, fast-paced. Mystery. 2017

SIR 38: ‘Causes of and possible solutions to climate change’

By Al Lumas

During our March 20 luncheon meeting, Sudhanshu “Suds” Jain will discuss the fundamental science behind climate change, a few of the impacts, and possible solutions to address this problem. Non-SIR members wishing to attend the presentation should arrive at the Clubhouse at 12:30 p.m.

Suds designed integrated circuits for 25 years. In 2008 he decided that the impending Climate crisis was far more important than designing the next switch chip for computer networking and he “retired” from Broadcom Corporation to become a “professional volunteer.” He also coached a FIRST Lego League robotics team for five years and the high school FTC robotics Team at Wilcox High School for three years. He currently serves on the City of Santa Clara planning commission.

He also serves on the Board of Acterra.org. He has also installed solar panels on low income housing with Grid Alternatives. He’s active with Citizen’s Climate Lobby, which advocates for a carbon tax with 100 percent revenue recycling (dividends to consumers). Since September 2011, he’s been teaching a “Climate Change Science” class to middle school students at Discovery Charter School. Sudhanshu holds BSEE and MSEE degrees from MIT.

VMA: Quick and easy bone density screening

Don’t miss this convenient opportunity to have a preliminary bone density screening here in The Villages. The Villages Medical Auxiliary (VMA) has arranged for BALANCE In home/On site Therapy Services (“BALANCE”) to conduct screening from 10 a.m. to 1 p.m. in the Cribari Conference Room on Wednesday, March 21.

A bone mineral density test can provide a snapshot of your bone health. The screening can identify osteoporosis, determine your risk for fractures and need for further intervention. A preliminary bone density screening is a screening of the heel bone, where we sit and insert one bare foot into a non-radiation machine for less than a minute. The machine then prints our own personal report, and a licensed physical rehab therapist from BALANCE explains our results on the spot. Residents are welcome to take these reports to their doctors for further follow up, if they wish.

BALANCE founder Anita “Nita” Keswani-Bhatt has worked in India, the U.K., and mostly here in the United States over the past 30 years. Her work experience has been gained in acute hospital, orthopedic/neurological clinic, skilled nursing facility, and home health care settings. Ms. Bhatt started BALANCE in 2010 with a focus on helping the elderly receive physical and occupational therapy services in the comfort and convenience of their own homes.

Loss of bone density/osteoporosis is a silent disease. It increases the chances of a fracture after a fall/injury. Whether you have already experienced such episodes, or seek to prevent them, the VMA encourages you to take advantage of this free service. Please contact VMA Social Service Coordinator Cristina Freyer, 408-238-4029, cfreyer@ncphs.org for the required pre-registration.

Evergreen Initiative and possible unintended consequences

The Republican Club will hold its monthly meeting on March 22 at 10 a.m. in the Foothill Center. We will have our usual yummy Brunch served by Carmen Ackmann followed by a very important presentation by Bonnie Mace about the controversial Evergreen Initiative.

Our speaker Bonnie Mace states the ballot box is not the appropriate way to approve new development, as it opens the door for similar housing proposals across the city that completely ignore the character of neighborhoods and the community voice of the residents. Additionally, because this 367-page initiative must be accepted as if it is approved, there is no possibility for any negotiations among residents, developers and the City of San Jose to mitigate any of the costs of this development. In other words, it’s a “take or leave it” package.

Ms. Mace is well qualified to speak on this subject. She is a two-term school board trustee in the Evergreen Elementary School district. She has lived in the Evergreen area for 20 years, and has served as the past President of the District 8 Community round table, in addition to serving as past Housing Commissioner, General Plan Task force Representative, and Redistricting Commissioner for the City of San Jose. She currently works as the Executive director of the Santa Clara County School Boards Association and is a Professional Expert for the Santa Clara County Office of Education. Ms. Mace has a Ph.D from UC Berkeley in Political Science.

Global Village: discuss ‘Intrinsic Visualization’

By Susan Howe

Intrinsic Visualization will be discussed on Wednesday, April 4 at 4 p.m. at Cribari Conference Room.

Have you wondered why some people seem to be able to navigate life so easily? These individuals embrace change. Very little disturbs them. They glide from one activity to the next. It’s as if they have a secret knowing or invisible power that also allows them to stay centered, positive and energized. Accomplishing their goals and creating what they want seems to require very little effort. Whether at home, with family, at work or play, life flows like a river for these special people.

Intrinsic Visualization is about manifesting your desires. It’s been used to break negative habits, help athletes improve at their game, assist business people achieve goals, stay centered, reduce stress and much more.

Glass Fused Jewelry Class with Carol Norden

Here is an opportunity for Villagers to create their own one-of-a-kind fused glass necklaces. Carol Norden is conducting a class in Glass Fused Jewelry on two Tuesdays: March 20 and 27 in the Cribari Art Room, 10 a.m. to 2:30 p.m. On the first day, participants will select from Carol's large collection of Dichroic glass to design pendants, which Carol will take home and melt in her glass kiln. The next Tuesday, participants will attach the glass chips, pearls, crystals and beads to the fused glass to create a pendant.

Depending on how much time they spend on each piece, participants should be able to make an unlimited number of pendants that are great for gifts or to enhance their own jewelry collections.

The fee for this class is \$75, which covers both days of this Glass Fusion Jewelry Making Class on successive Tuesdays, March 20 and 27.

Register with Judy Wessler at judywessler@gmail.com or 408-646-3687 to participate in this fun class. Registration and payment due by March 17.

Chinese Club: Vision Care Educational Talk

By Chong "Albert" Chan

We are delighted to have Dr. Arthur Low, a certified Optometrist, to give our members an educational talk regarding issues pertaining to, and procedures to take care of, our aging vision. This event will be held on Wednesday, March 21 from 7 to 9 p.m. at the Vineyard Center. All Villagers are welcome to attend. Dr. Low graduated from UC Berkeley School of Optometry in 1975 and has practiced in Campbell since then. He's now semi-retired. He was named OD of the Year from the California Optometric Association in 1997 and Campbell Citizen of the Year in 1994. He was also president of the Campbell Chamber of Commerce from 1999-2001, and again in 2005.

Why should we participate in Dr. Low's talk? That's because as we age, a number of eye diseases will develop that can change our vision permanently. The earlier these problems are detected and treated, the more likely you can retain good vision. Dr. Low is here to teach us the right things to do in order to retain good vision for as long as possible. Without good vision, our enjoyment in life would have to be compromised.

Some of the common problems with vision for seniors include the following:

- Cataracts - causes blurry vision, decreased contrast sensitivity, and increased sensitivity to glare.
- Retinal detachment - is a tearing or separation of the retina from the underlying tissue, which can cause permanent vision loss.
- Dry eye - is a common and often chronic problem, particularly in older adults.
- Glaucoma - damage to the optic nerve resulting in vision loss. Glaucoma is often painless and can have no symptoms. Over time, it can take away peripheral (side) vision.

The teaching session will be conducted in English. But Dr. Low is bi-lingual and can address questions and issues in Mandarin as well.

There is no pre-registration required but if you want to hold a seat, please email to cchan108@gmail.com. If space becomes an issue, members and registered guests will have first priority.

'Arctic Ocean Rowing Adventure

free presentation

"Arctic Ocean Rowing Adventure," a presentation by Carlo Facchino, will be offered Wednesday, April 4 at 2 p.m. at Foothill Center. Sponsored by Senior Academy, this event is free and no registration is required.

Carlo Facchino

During the summer of 2017, Carlo Facchino, along with the crew of the Polar Row, set out from Tromoso, Norway and headed north to the Arctic Ocean. The crew navigated through dangerous ice drifts, battled Arctic storms and made an emergency landing on the remote volcanic island of Jan Mayen.

In 2016 Carlo competed in The Great Pacific Race as part of "Team Uniting Nations." Carlo and his teammates have set numerous Ocean Rowing world records.

Fitness Center Committee News

February usage for the Fitness Center continues to be strong—there were 3,522 visits, averaging 126 per day.

Exciting updates!

This month four pieces of new equipment will be placed in the Fitness Center:

- Lat Pull Down machine
- Leg Press
- Recumbent Stepper
- Treadmill

We are really looking forward to a new floor plan and improved location of the equipment to help to provide the most effective order of the equipment for a beneficial strength workout.

Keep in mind there will be a day when the Fitness Center may need to be closed for an additional hour to allow for the placement of the new equipment and the revision of the floor plan. Watch for updates in the fast lane.

Reminders:

• Take a look at the educational video about the equipment in the Fitness Center on Channel 27 or on The Villages website under "Resident Portal" and then "Amenities." It's always helpful to review how the equipment works!

• The cardio equipment is important to everyone; please adhere to the 30-minute usage guideline. Also, if you have had the opportunity to use a particular machine for your 30 minutes, please be willing to let the next person who would like the machine have the chance to use it too!

• When the cardio equipment needs to be repaired, it can take time to get the required parts as some of the equipment is harder to find parts for. Please keep that in mind if your favorite machine is out of order a bit longer than desired.

We can stay strong and fit as we age. We have a wonderful fitness center to provide cardio health and lots of options for strength training.

One of the best core exercises is the **plank**, and it helps to improve overall body strength and balance.

See you soon at the Fitness Center! Let's make 2018 a healthy one!

VAT: Hopelessly hoping for hope in 'Anything Goes'

In "Anything Goes," we get to meet Billy (aka Lou Figone), a lovelorn Wall Street broker, who loves Hope (aka Madelaine Yannaccone), but Hope, an American debutante, doesn't love Billy. Reno loves Billy but Billy isn't attracted to Reno. All this romantic confusion plus a lot more happens aboard a ship headed for London. Add in fast paced comedy, memorable music, established actors and you get great performances. Will there be a happy ending?

Lou tells us, "I enjoy the challenge of learning the lines and songs and it's fun getting into the character I'm playing. But more importantly I love the charge I get from seeing the audience having a great time watching the production."

Madelaine tells us, "I love the thrill of character portrayal, performing on stage and the applause! I fulfilled my long-time dream playing Eliza Doolittle in 'My Fair Lady.' The songs, lines, and accent came naturally for me. My mom and I both loved the film version and I was thrilled to perform this cherished role with my mom and sisters in attendance. Sadly, mom passed away shortly afterward."

Lou Figone and Madelaine Yannaccone—two of the many reasons to see "Anything Goes". There will be three performances - Friday, April 6 at 7:30 p.m.; Saturday, April 7 at 2:30 p.m. and Sunday, April 8 at 2:30 p.m. in the Cribari Auditorium. Tickets are \$15 each will be sold on Saturdays, March 24 and March 31 in the Cribari Center Redwood and Terrace rooms from 10 a.m. to noon.

Get your tickets early. Odds are, this will be another sellout.

Art in the Park is Saturday, April 28

This year marks our 19th annual Art in the Park (arts & crafts fair) event at Gazebo Park from 10 a.m. to 2 p.m. Are you a crafter and/or artist who is new to the Villages? Villagers! It is that time again when our Women's Long Nine Golf Club begins its search for young women golfers between the ages of 8 and 17, to play in this year's 28th annual Corena Green Junior Girls Golf Classic. This is a great event planned and sponsored by WNHGA. It will be held this year at Contra Costa Golf & Country Club on August 7.

There are two age groups, 8-13 and 14 -17. They do not have to be terrific players, but have to have played enough to know the rules and proper etiquette of the course. Prizes and scholarships will be awarded. Last year we sponsored six young ladies and they all had a great time.

So, ladies and gentlemen of the Villages, if you have a granddaughter or niece, or have a friend who knows someone who might qualify and would like the experience of playing in a 9 Hole Golf Tournament, application forms will be coming out soon. Spots do fill up very quickly, particularly in the 14 to 17 age group, so if you have someone who is interested, please contact the representative listed below early for the applications.

COMMUNITY CHAPEL

By Pastor Bill Hayden

When you think about your life, what are your thoughts? Is there something that you wish you could go back in time and change? I'm sure that there are choices you and I have made, that could have gone not just wrong but terribly wrong.

There are events that have occurred in my life that I'm not proud of, but I've learned from them, and I believe that I am a better person because of them. Some experiences can be so very painful, especially if you are deeply wounded by them. You can go through life being defensive and isolate yourself because you want to make sure that you aren't wounded again but you may miss out on enriching your life if you do this.

Let's admit it, we are all imperfect people who sometimes demand perfection from others but not from ourselves. You may have heard people say to you "this is just the way I am so you can take me or leave me" or "what you see is what you get!" Refusing to do better can sometimes lead to frustration, loneliness, isolation and a lack of close relationships with others.

Sometimes people have had repeated, multiple failures in life and were afraid to take the opportunity to change. They chose to remain the same person with the same attitude that resulted in the same outcome. As the saying goes, if you are doing the same things the same way,

and expecting different results, it is a sure sign of insanity.

When you stop to think about your life, it is an opportunity for change, if you are willing to take the appropriate actions. Change is not an impossibility because over time we all change for good or bad. If you want others to change, be the first person to start the process by taking baby steps. You may stumble or fall, just as a child does learning to walk. If you open your heart, there will be an open hand to keep you on the path. But more importantly God loves you and desires the best life for you.

II Corinthians 5:17 NKJV
"Therefore, if anyone is in Christ,

he is a new creation; old things have passed away; behold, all things have become new."

Please feel free to join us this Sunday and sit among angles at the Villages Community Chapel in Cribari Auditorium 10 a.m. to be encouraged over the Word, a cup of coffee and cookies. **The chapel is a place for needs to be met, faith to be affirmed and people to love.** We would love to meet you. If you would like to make an appointment with Pastor Bill please call the office at 408-238-3079. *To learn more about the Villages Community Chapel visit our website at <http://www.villagescommunitychapel.org/>*

Ah, the "The Agony and the Ecstasy." Agony is Shonis arriving at the course on March 6 to 45-degree weather. Ecstasy is finishing our round to beautiful, warm, shirtsleeve bliss. Nineteen regular players teed off on this day with fervent visions of snagging the coveted Captain's Trophy for the month of March. Joining course play was a new qualifier, Fran Schumaker. Welcome, Fran! There were two impressive chip in birdies noted on our scorecards. Carolyn Hill found hers on hole 9 and Jonna Robinson on hole 2. Awesome shots, ladies! Last but not least, drum roll please, congratulations to Vivian Wilczak and Tahera Khalil who tied for the Captains Trophy with two great scores. Casual Thursday morning play is still ongoing at 10:30 a.m. for anyone who is interested, good fun and great practice. What a combo!

Chuckle of the Day:

"After all these years, it's still embarrassing for me to play on the American Tour. I asked my caddie for a sand wedge and he came back 10 minutes later with a ham on rye." - Chi Chi Rodrigues

SWINGERS

By Mary Wagle

The morning of March 6 dawned, and apparently 62 ladies figured that the weather report was right. And it definitely was a beautiful day for golf. Out of the 62 ladies who played, we had Selma Chastaine chip in on hole #5, Mary Stowers got a chip in on hole #5, Rita Karlsten got a birdie on hole #11, Linda Planting got a 100-yard chip in on hole #14 for a birdie, and Wendy Ledamun got a chip in on hole #11. Wendy also got a net 27 to win this month's Captain's Trophy. Congratulations to Wendy Ledamun on a great golf game! We want to encourage all Swingers to come out for the Thursday golf group, which usually starts at 1 p.m., for nine holes. A weekly invitation goes out with sign-up information. After daylight savings time, we're hoping to accommodate those of you who want to play 18 holes. The Thursday group is open to all golfers, not just Swingers, so come join in the fun. The mixer with the 18 Hole Ladies Club is on April 19 and the mixer with the Shonis is on April 24. Signup sheets are in the Posting Room. Additionally, the golf course will be closed on March 27, so Swingers' sweeps play will be on Monday, March 26.

Swingers do enjoy the game of golf, and we would like to also share some fun facts about the game with all of you reading this article. First, there are 336 dimples on a golf ball. 80 percent of all golfers will never achieve a handicap of less than 18. The longest drive ever was 515 yards, and the longest putt was 375 feet. Tiger Woods got his first hole in one when he was only 8 years old, but the youngest golfer, Coby Orr, was only 5 when he got a hole in one. Lastly, the driver swing speed of an average woman golfer is 62 miles per hour. So, Swingers, keep on swinging those clubs.

18-HOLE WOMEN

By Sue Daughtrey

What a beautiful day to play golf with our 18 hole ladies. There were 51 women to compete for our first of the month Captains Trophy and low putts. Our winner of the Captain's Trophy was Sumi Minami with a net 68. She was in a zone, for sure!

Low putts went to Sachiko. Congrats to both ladies.

After Lunch, we had our General Meeting followed by some announcements for future events. Bev Poulett spoke about a new Ambassador program that will be called "At The Villages Life begins at 55." People will come to visit and an ambassador will take them on a tour of The Villages and set up a round of golf if interested. Bev also spoke about the new Sunday Partners Golf with no formal dinner. Dates for this will be posted in the posting room right below the pictures of our Club Champions.

Betty Buchanan announced that the Associate members putting group will start competition on April 5.

Cindy Fuller announced the Invitational committee is now being formed.

Hannah has announced the date for the Alzheimer Tournament will take place on April 29. Should be a great tournament and fundraiser.

Birdies today were had by Kathleen Holt #4, Sumi Minami #11 and Carol Zaccheo #15.

Chip-ins were made by Kathleen Holt #2 & #4 for \$6.50 and Sumi Minami on #12 for \$3.50.

TENNIS TALK

By Sherry Benz

It is difficult as a senior for me to change bad habits, long engrained in my tennis strokes, not to mention a general stubbornness. But, I found this suggestion worthy of practice ... the "split step," and for senior players, it is said to be the single most ignored part of the tennis stroke. Three things happen during the split step:

- When you land on the balls of your feet, you are correctly balanced to move in any necessary direction.
- Energy is stored in your legs and knees to give you better acceleration toward the proper hitting position.
- You are forced to concentrate on your opponent's racquet as he/she starts the swing so that you can time your split-step correctly.

Studies at Vic Braden's academy show that the above factors can give a player over 1/4 second advantage in moving to the ball (I need all advantages available!). In 1/4 second, a medium paced ball (60 MPH—yikes!) will travel 22 feet—the distance from the net to the service line. Learning to split step on every stroke is sure to improve your tennis. I am going to try it. Let me know how it goes for you.

Hope you all have Monday, March 26 on the calendar. It is our 2018 Tennis Club Open House and an opportunity to promote tennis and show off our wonderful club and facility to the community. There will be prizes, drills, fun, strawberry shortcake and the kick-off for Jump Start. Contact Betty Olsen 408-361-5591 or Brian Dombrowski 408-499-2633.

PINSEEKERS

By John Eige

On Tuesday March 6, we Pinseekers had our usual shotgun start at 8:45 am, scattered around on several tee boxes, along with the Swingers ladies. Our foursome had space in front and behind us all the time, so we were keeping up with the flow.

The net big winners today were:

- First Place: Dennis Cullen alone with a decisive net 32.
- Second: the walking pair, Lonny Ishihara and Tak Okabe with 34s.
- Third: David Cook, Frank Garcia, and Chet Purcell all with 35s.
- Fourth: (Breaking the string of one first, two seconds, and three thirds, we had only a triplet for fourth place.) John Murphy, Gus Warmerdam, and John Eige with 36s.

In the 2018 Championship competition, Cook took the lead by one point with 52, followed by Robinson 51, Iacopi 47, and "coming up on the outside" as they say in horse racing, Okabe with a 44.

IRONMEN

By Bill Travis

New resident orientation for new Villagers was held last Wednesday and the Ironmen had a table at the event. Several of the new folks were interested in our club and dropped by the table to get more information. The next day was a beautiful day for golf! It was sunny and 70 degrees and we had a very good turnout. The results are as follows:

Net Sweeps winners were:

First Place was a tie among Dave Cook, Don Willey, and Dave Hathaway each with a net score of 28.

Second Place Bill Travis with a net score of 29.

Third Place was a tie between Jerry Weltzin and Mario Silva each with a net score of 31.

There were two birdies:

Dave Hathaway on hole 1 and Jerry Weltzin on hole 9.

Our deep thought and/or humor for today is: "Golf is the cruelest of sports. Like life, it's unfair. It's a harlot. A trollop. It leads you on. It never lives up to its promises...It's a boulevard of broken dreams. It plays with men. And runs off with the butcher." - The great Jim Murray, sportswriter for the Los Angeles Times.

GOVERNING DOCUMENTS / LEGAL REQUIREMENTS:

CA Civil Code, Sections 1102.6 and 1102.6d; CA Health and Safety Code Sections 13260, 13261, 13262, 13263, 17926, 17926.1, and 17926.2; CA Building Code 420.4.1

CA Senate Bill (SB) 183 enacted May 7, 2010.

National Fire Protection Association Code 720, Standard for the Installation of Carbon Monoxide (CO) Detectors.

POLICY:

All interior CO detectors, hardwired or battery operated, that exclusively serve a villa shall be installed, maintained, repaired and/or replaced as needed by the owner of the villa, in accordance with this policy.

LIMITATIONS:

None

IMPLEMENTATION PROCEDURES:

Refer to Association Procedure Number APr 410.

This document sets forth the procedure to be followed to ensure the proper installation, maintenance and replacement of CO detectors throughout the Association villas.

1. All villas must be equipped with CO detectors that are installed according to current California Health & Safety Code § 13261, 13262, 13263, 17926, 17926.1 and 17926.2 and California Civil Code § 1102.6 and 1102.6d.

The National Fire Protection Association (NFPA) Code 720, Standard for the Installation of Carbon Monoxide (CO) Detectors, Section 9.4.1.1, states "CO detectors shall be installed outside of each separate dwelling unit sleeping area in the immediate vicinity of the bed-rooms" and "on every occupiable level of a dwelling unit, including basements, excluding attics and crawl spaces".

2: Each owner is required to inspect (or have inspected by a third party) his/her villa on an annual basis to ensure their detector(s) are in working order. Because CO detectors have a limited life, replacement of CO detectors is required every five (5) years. A "Statement of Compliance" that the detectors in their unit are in working order must be signed by the owner.

Existence of the A Statement of Compliance shall be demonstrated every two years by including a copy of the document in the bi-annual Survey of Resident Occupant's age that is required by Villages Association Rule 2.01 which ensures compliance with California Civil Code 51.3. form will be sent to the homeowner annually, enclosed in a monthly billing. The Statement, confirming that the CO detectors in their unit are in working order, shall be signed and returned to the Villages Association, 5000 Cribari Lane, San Jose, CA 95135.

3. Upon the transfer of each villa whether by sale or rental, the number and location of CO detectors must be brought up to city and state code. A "Statement of Compliance" that the detectors are in working order and the unit meets current code must be signed by the selling or leasing owner. The Statement of Compliance will be required before such transfer can take place and before a gate entry bar code is authorized.

4. Renters are responsible for testing their CO detectors and notifying owners when their CO detectors are not in working condition or are missing. Upon notification, the owner has fifteen (15) days to repair or replace the non-functioning or missing CO detector as noted in paragraphs one through three above. If the owner does not respond accordingly, the renter shall notify the Community Standards Administrator.

5. Twice each year, at daylight savings time change, The Villager shall publish a reminder to "test your CO detector(s)" in four successive issues.

6. Each calendar year, the Community Standards Administrator, on behalf of the Association, shall conduct a random audit of ten (10) percent of the villas by scheduling an inspection with residents of those villas. The audit is to ensure the presence and working function of CO detectors.

Tips from the Pro—Club-face vs Club-head Path...If you hit a slice to the right or a hook to the left, here are some simple ball flight laws that if you understand, might help you out. If you hit a slice think about this...if you swing the clubhead to the right, and keep the club face left, you are guaranteed to hit a draw or a hook to the left. If you hit a hook, think about this...if you swing the clubhead to the left and keep the club face right, you are guaranteed to hit a fade or a slice. It's simple physics...so digest this, then try it on the range and see if your slice or hook doesn't go away, I guarantee it will! See you at the course!

By Mike Ney, Branch Manager for BrightView Landscape Services

We want to reach out and provide an update on the status/progress of the Villages overseeding project. To date we have completed approximately 90 percent on the areas to be overseeded. We postponed the remaining 10 percent of the project from January through mid-February while germination conditions were inhibited. With the longer days and improving germination conditions we are ready to resume the project. We will begin spraying out selected undesirable grass species this week. This will be followed by mowing the remaining lawns very low, applying the seed with a slice seeding machine and covering the overseeded area with mulch. We will work through the remaining neighborhood as outlined in the schedule below. We will be starting with Highlands and end with Valley Vista. The project should be completed by the end of March.

Dealer: South

Vulnerability: East/West

Bidding: South	West	North	East
Pass	Pass*	1 Club	Pass
1 Heart	Pass	1 Spade	Pass
2 Hearts	Pass	3 Hearts	Pass
4 Hearts	All Pass		

Contract: 4 Hearts by South
Opening Lead: 10 of Clubs

Dealer has a possible loser in Hearts, quite a few in Diamonds, and 1 in Clubs.

Strategy: South observes from his hand and the board's that there is a good possibility for some distribution issues. Try to set up the Diamonds.

West leads the 10 of clubs, South, the Ace, then switches to the Queen of Diamonds, East, the King, and South wins with the Ace. He plays a Diamond, trumps it on the board, then leads the King of Spades, sluffs a Club from his hand, and West takes the trick with the Ace. He plays a Club, South trumps, leads a Heart to the Ace on board, then continues with a Heart, to the Queen, then plays the King to pull the last trump. He next leads the 9 of Diamonds, East wins with the 10 and it doesn't matter what he leads next, a Spade or a Club. South can trump either one, and then plays the rest of the Diamonds. Great! The contract is made with an overtrick. Making an extra trick is not easy to do in this deal. Remember what the bridge experts say before playing your first card from the board, have a plan on how to make the contract. Notice that early in the contract, South threw a loser on a loser, the King of Spades, and the last Club he had in his hand.

* Some West players might make a preemptive bid in Spades, but this is not a good idea when you are vulnerable and the other side is not, plus West has only 1 honor in his long suit.

WHERE IN THE WORLD IS THE VILLAGER?

Here's how it works: Take along a copy of *The Villager* on your next vacation—it's not heavy—and have your picture taken holding up the paper with a well-known landmark or celebrity. Just tell them it's for the folks back home. (And be sure to get your camera back!) Then after you unpack and process your pictures from your vacation, e-mail your *Villager* picture (in Jpeg format) and perhaps a couple of "zingers" from your vacation and e-mail the files to shinrichs@the-villages.com. We'll publish your smiling face with your favorite local paper for all to see.

help when needed. Classes are taught using PC computers with Windows 10; no Apple Mac computers. Students taking iPhone, iPad, and Android courses bring their own devices to class.

Session topics include Computer Basics (for beginners and anyone who wants to refresh their skills), Windows 10, iPhones and iPads, Android phones and tablets, the internet, using Uber and Lyft, Gmail, Google Photos, Photoshop, Microsoft Word, Print Shop party projects, organizing the stuff on your computer, and even an iPad course for musicians. The two-hour workshops are a quick take on a variety of subjects. You can sign up by attending registration or by using the proxy form in the eight-page brochure (mailer), which includes the schedule and descriptions for all courses and workshops. If you do not receive the mailer directly, you can find it at the website address below.

If you were on the old mailing list, you'll receive the mailer. Copies will also be available at the information desk in the lobby or visit almadencca.org, where you'll find links for the schedule, mailer, and a proxy form. Call 408-674-1401 if you have questions.

Along the Way—a trip down Memory Lane

(With Tom Zades—contact him at: tomzades@gmail.com)

Many of us know from sad personal experience that the introduction of in-laws into a family can create friction, fracture, and irreparable hard feelings. In the case of a huge family (Mom had 9 sisters and 3 brothers), little subgroups form based on who can stand whose spouse. One of Mom's sisters married a man who was in management and wore a white shirt to work. This sister started to put on airs, acting like she was above the others (at least that is what the others felt; it may have been simple jealousy). One sister married a man who never worked. Mom married a guy who didn't drink and swear, and so didn't fit in very well.

Dad differed in another way, as well: in an argument - generally about sports or politics - he would try to use logic and reason. Mom's brothers and brothers-in-law preferred to just repeat their one or two phrase opinions in louder and louder voices, becoming red in the face and screaming, until the other fellow gave up or gave in. While we largely understand each other in our modern diversity, they could hardly stand each other in their post-war homogeneity.

Association Members—Another Form Coming Your Way!

By Julia Meadows, Assistant General Manager

First of all, thank you for returning your Statements of Compliance for Smoke and Carbon Monoxide Detectors per Association policy—you still have time if you have not yet done so. Extra forms are available in Building A.

As you know, The Villages Association is a common interest development (CID) subject to California Civil Code Sections 4000-6150 (also known as the Davis-Stirling Act). Passed in 2016 and effective in 2017, California Senate Bill ("SB") 918 added a new Civil Code Section 4041(a). This new section requires all CID owners (owners of condominiums), to annually and in writing provide the HOA (The Villages Association), their contact information for sending HOA notices, and to inform the Association whether the residence is owner-occupied or rented.

Associations are required to solicit these notices at least 30 days prior to the annual association disclosures. For The Villages Association, that is the Annual Budget Report and Annual Policy Statement that are distributed in May. If an owner does not annually provide this notification, the association must deem the last address provided in writing by the owner, or if none, the property address, shall be deemed to be the address to which notices are delivered. Completing this form will not discontinue electronic distribution of association documents if you have signed up for that program.

So, coming with your March statement will be a form (lavender in color) to complete and return that complies with this law. As a result of input received from Villagers last year, we have tried to make the form more understandable and easier to complete. If you have any questions regarding the form, please contact the General Manager's office at 408-223-4634.

Again, thank you.

Ask the Chief! Submit questions for San Jose Police Chief

On April 4, Edgardo (Eddie) Garcia, the San Jose Chief of Police will be coming to the Foothill Center at The Villages. Eddie has a very ambitious Agenda for San Jose to share with us. But we know the Villagers will have a host of questions and concerns to raise with Eddie and he is open to discussing them with us.

To help manage the questions and give everyone a fair chance to be heard, we invite you to submit your questions by March 23 to give us time to collate them and present them to Eddie ahead of time to let him be fully prepared.

Please submit your questions by email to Nancy Pyle (nancy.pyle@comcast.net) or Tony Berg (anthonydberg@gmail.com).

This event is presented by The Villages Democratic Club, but all Villagers are welcome.

Crafters Sale...

(Continued from front page)

we're very disappointed that the Board of Directors decided against reopening the Boutique shop in Cribari Center, we're excited about our new future—we plan to make our merchandise available to Villagers by hosting sales events several times a year. We also want to thank everyone who supported the Boutique and our efforts to reopen. We are counting on your support as we move forward."

Laurie Truman sits with her ceramic totems. She'll be showing her ceramics and discussing her custom totem projects during March Madness.

Band Concert...

(Continued from front page)

To further enhance our afternoon's enjoyment, the band will play "Mancini Magic," in which you'll hear "Mr. Lucky," "Baby Elephant Walk," "Moon River," "Charade," "The Pink Panther," and "Peter Gunn."

Finally, what could be more fitting on a journey of escape than the band's rousing rendition of the "Tritsch-Tratsch-Polka," by Johann Strauss II. Could the title mean "Chit-chat," or could Tritsch-tratsch be the name of somebody's poodle—who knows? Come join us for the concert and see what you think. And if you feel inclined to hum along to any of these familiar tunes, please do it softly—the rest of us want to hear the band!

Filoli...

(Continued from front page)

by docents who will take us on a tour through the house (mansion) and gardens, and enjoy the spring flowers so marvelously displayed. Following the tour we will have the opportunity to go to the wonderful gift/garden shop to browse and of course make purchases of the wonderful items offered.

Filoli was built for Mr. and Mrs. Bourn, prominent San Franciscans whose chief source of wealth was the Empire Mine, a hard-rock gold mine in Grass Valley, California. Mr. Bourn was also owner and president of the Spring Valley Water Company comprising Crystal Springs Lake and surrounding lands, which are now part of the San Francisco Water Department. Mr. Bourn selected the southern end of Crystal Springs Lake as the site for his estate. He arrived at the unusual name Filoli by combining the first two letters from the key words of his credo: "Fight for a just cause; Love your fellow man; Live a good life." The house contains 36,000 square feet of interior floor space on two floors and a mezzanine. There are 43 rooms and 17 fireplaces.

Following our tour and shopping at Filoli, we will depart for the lovely Stanford Shopping Center where you will be able to get something to eat at one of the many eateries and spend the afternoon shopping. Enjoy San Francisco Bay Area's premier shopping and dining experience. Discover Neiman Marcus, Bloomingdale's, Nordstrom and Macy's, plus 140 other world-class stores, restaurants and services.
