Water Conservation Committee

Make Water Efficiency a Lasting Effort

Did you know that the City of San Jose has water use rules that remain in effect at all times to promote efficient water use?

Save water and make water efficiency a part of our daily lives.

Water Use Rules

- **Be cool**—water when it's cool. For sprinkler systems, water before 10 a.m. and after 8 p.m. Sprinklers cannot run more than 15 minutes per station per day. If you notice this occurring, report it through The Villages Work Order.

- **Be a sharp shooter**—with automatic shut-off nozzles. This helps you aim and control the water and can save many gallons.

- **Be quick**—fix water leaks as soon as possible. Start fixing identified leaks within 5 working days.

- **Be in control**—don't let water flow into gutters or streets. Beyond minor splashing of surfaces, sprinkler and drip systems and hand watering that cause water to flow into gutters and streets or that make large puddles is not allowed. If you notice this occurring, report it through The Villages Work Order.

- **Be a sweeper**—sweep hard surfaces. Use a broom instead of a hose to clean patios, sidewalks, driveways, parking lots, or other hard surfaces. Note: Hosing is allowed when using an automatic shut-off nozzle.

Remember that "Approximately 24 percent of Association expenses are budgeted for water." Let's all do our part in reducing our water usage.

- **IMMEDIATELY** report any outside water leaks or water runoffs by completing a workorder, if it is an extreme emergency call Public Safety.

- **IMMEDIATELY** take care of any indoor water leaks.

VMA to take over can recycling

The Villages Medical Auxiliary (VMA) now has sole responsibility for collecting all the aluminum cans the High Twelve organization used to collect.

As of September 2021, the license needed to collect these cans has been turned over to the VMA. There are collection receptacles located in all of the dumpster areas throughout The Villages, so be sure you deposit your cans in these containers. This is one way you can help foster the activities and support programs the VMA generates for all residents. Thank you for your support!

Comcast "Do You Know's?"

During April 2021, the Network Services Committee, a group of Villages technology experts, was chartered to conduct a technological investigation of the current state of the communication services present within The Villages. The committee was asked to provide their findings to the Club Board prior to the expiration of the Comcast Bulk Service Agreement. One of the committee's activities included conducting a survey of Villages residents on their use of television, telephone, and internet.

A total of 751 responses were received, 528 online and 223 submitted on paper from *The Villager* newspaper. Over the next few weeks, the CBOD's "Did You Know" column will be presenting the highlights of these surveys.

Did You Know?

How Villagers Use Their Telephones

Given that many of us are old enough to remember "Ma Bell," it's not surprising that 64 percent of residents have a land line, but only 21 percent use AT&T and 72 percent use Comcast's VOIP. Comcast is rated higher than AT&T in quality (4.4 vs. 4.0 on a 5-point scale) and support (4.1 vs. 3.7) for their telephone services.

Of the 751 responses, over 90 percent responded to the cell phone provider section. The main providers of cell service in The Villages are Verizon 40 percent, AT&T 25 percent, T-Mobile 12 percent, Comcast/Xfinity 8.7 percent, Consumer Cellular 6.5 percent and "Other" 7.8 percent.

The table below shows satisfaction ratings for three parameters: signal strength at home, signal strength generally around The Villages, and satisfaction with the supplier's support and responsiveness. In general, Villagers are happy with their cell phone reception within their home, and less so for Villages-wide reception.

Provider	count	Pct	Home Signal	Villages Signal	Support Level
Verizon	290	40.2%	3.7	3.7	4.0
AT&T	177	24.5%	3.6	3.6	3.7
T-Mobile	89	12.3%	3.9	3.8	4.3
Xfinity	63	8.7%	4.2	4.1	4.4
Consumer Cellular	47	6.5%	4.0	3.8	4.5

In summary, almost all Villagers have a cell phone, but only 2/3 have a land line, justified mostly for emergencies. The biggest area of dissatisfaction was cell phone coverage higher on the Hillside (Glen Arden, Olivas). Stay tuned next week when we look at Villagers' Internet usage.

I don't believe the residents are given the full details of our water usage at the Villages so I wanted to provide a little more information. During the last drought which ended with the fiscal year 2015-2016 (FY16) our water usage was at the lowest level in the 10 years I have kept records for Sonata. For the year ending June 2021 (FY21) residents have only increased their usage by 13% over FY16 with some villages increasing by 3% but some up to 30%. What they didn't tell you is we used about the same amount of irrigation water in FY21 as FY20 but FY20 used 17% more irrigation water than FY19 but most important last year we used 121% more irrigation water than we did in FY16. Yes you read that right; we used more than twice the irrigation water than we did in the previous drought. I heard that we recently reduced our irrigation usage by 18% but that only takes us back to a little less than two years ago. We should all do our part at home but 70% of water usage is irrigation, so this is where we need to really conserve.

—Ed Logg

Since we are out and about more now, I have noticed something that makes me proud to be a Villager. How many times have you seen a Villager/friend give a ride to someone who cannot drive anymore? The post office, church services, library and pool are some of these places that would help a shut-in without a car. I am reminded that the joy of giving and receiving is rare and beautiful in this day and age.

Can you think of someone who would love to get out?

—Jean Gillette

I applaud Nancy Fomenko's comments about lawn alternatives in her Pulse letter in The Villager's September 2 issue. I believe that our Management, Boards, and BrightView are open to suggestions as they balance multiple considerations in regards to water conservation. In the process I hope we can maintain all that green grass on our golf course and throughout our villages. It represents vital moisture which goes a long way towards protecting our homes in the event of wildfires.

—Linda Dahberg

For over a year, those of us along the high hill in back of Cribari have been watching the ranch immediately in back of us continue to add truckload after truckload of dirt drastically enlarging the hill. Do they have city permission to do that? What is The Villages doing about this?

—Bonnie Preston

Ask the ABOD – September 2021

What is the Water Conservation Rapid Response Team and why are they at my door to inspect for leaks?

In response to the California Severe Drought, the Villages Management Team has created a group to identify excess water usage, track down leaks, and inform residents of needed repairs. Headed up by Maria Elizabeth Hernandez, the team inspects water meters every two weeks and locates unexpectedly high usage. Then they set out to determine the cause which may be as simple a leaky toilet flapper valve, or a water softener that is running continuously which use a surprising amount of water over a month's time! More serious leaks might be happening in hidden areas—a water heater, a washing machine, or even an underground water supply pipe.

Without careful inspections leaks of these types can cause many thousands of dollars of damage before they become obvious. It is to everyone's benefit to find these and get them fixed as soon as possible. It sounds amazing, but a constantly leaking toilet flapper valve wastes far more water in a month than any sprinkler system's overspray (but please report those too!). Of course, everyone can check their toilet flapper leaking themselves, but there are a surprising number of cases where the resident was just not aware and perhaps could not hear the water leaking away.

Once the team identifies a condo building that is consistently using far more water than expected, letters go out to all the residents informing them and scheduling a home inspection. First step for our water inspection vendor is to visit the bathrooms and listen for leaks or visible dripping water. Next step is the kitchen and laundry area. Finally, all the water supply plumbing is disconnected from the water supply and the faucets, and is pressure tested with a safe level of pressurized air. If the pressure drops during the test, then there is a leak and the plumbing needs repair. Hopefully, the leak is at an easily accessible area, but hidden leaks will also be detected. Any repairs needed are noted to the resident with a deadline to have them fixed. It may be an inconvenience to have the plumbing inspectors examine various rooms in your home during the process, and you may have to move things out of the way to provide them access, but the water savings and serious repairs avoided is a big benefit.

This inspection process has been going on for almost a year now and has located many significant leaks across all the Villages. Fixing these leaks or faulty equipment is the largest new improvement in water conservation process for the Villages and is making a big difference. Landscaping water usage reductions, and resident's savings are also quite significant toward the Association meeting the voluntary water reduction guidelines.

Good job everyone! Thank you, Maria for leading the effort!

Regards,

David Cook, President, Villages Association

'Ask the ABOD!'

One of the Villages Association's goals for this year is to increase connections with our members. While our preferred path is through attendance at Association Board meetings, that's not always convenient for members. Also, members frequently have good questions on topics that don't come up at a Board meeting.

"Ask the ABOD" will allow our members to put their questions directly to the Association Board by email at:

"ask-the-abod@googlegroups.com"

All questions will get answered in ten business days, per ABOD Policy APo106. In addition, up to three questions and answers with the largest impact will be published in this monthly Villager column.

Some guidelines:

- Limit your questions to Association issues – condos, District landscaping, DAC concerns.

- Be sure you are asking a question, not just stating an opinion.

- Limit your question to one topic.

- Include your name and email address in case we need to contact you to clarify your question and to get your personal answer. If your question and answer is published in The Villager we will NOT publish your name or contact information.

- Be aware that multiple questions on the same topic will be combined.

(SRS) SENIOR RESOURCE SERVICES

A Eulogy for Dad

As the eldest daughter, you were nominated to put together the eulogy information for the Celebration of Life.

What do you know besides he was a great dad? Here's your first draft:

Dad was born Someplace in rural Ohio. He graduated from Some High School and joined the Navy near the end of WWII. After the war he attended Ohio State University and received his MBA in Some Year. He was in the Navy ROTC and was called up during the Korean Conflict. He then stayed in the Navy For a Time, while also attending law school on a part-time basis at Some Law School.

He left the Army When I Was in Junior High and went to work for a Really Big Law Firm. Ten Years later he changed to a Smaller Law Firm and later to the legal department of Cal Water in San Jose.

Dad loved Mom dearly and was excited when they had a family of three. (Do I mention the ex-wife and the one half-sister?)

Dad enjoyed traveling, fishing, and playing golf. Dad and Mom moved to The Villages in Some Year, and he continued to live there after Mom died. (Better not mention the many widows he dated.)

At this point in her writing, daughter remembered that dad had told her that when he died all of the important paperwork was in a brown file in his desk. She discovered his birth certificate, marriage license and even diplomas. And she really hit paydirt when she discovered a sheet headed Obituary Data from Senior Resource Services. Dad had added a couple of categories to the sheet, and she was able to complete her missing information and even say a bit more about him.

SRS has just updated our Obituary Data sheet. Do your children a favor and stop by the office and get a copy, fill it out and give it to them or at least let them know where it is. If you prefer, SRS can e-mail you the worksheet. It is an Excel worksheet, so you could add and delete categories to make it more personal to you.

Note: The Senior Resource Services (SRS) office hours for drop-in assistance are Monday, Wednesday, and Friday from 10 a.m. to noon. The SRS office is in the Cribari Center across from the Post Office. You may also leave a message at 408-239-5253 or e-mail SRS at villagesrs@sbccglobal.net. The purpose of SRS is to provide education and general business and financial information. All assistance is free and confidential. You should ask your professional adviser about your individual situation.

SRS Special Reminder:

Free telephone

Do you have low vision or have trouble hearing? The California Telephone Access Program distributes free telephones and/or other telecommunications equipment to individuals certified as needing assistance using the telephone. There is no income limitation for this program. The SRS office has applications.

Go to ddtp.cpuc.ca.gov and click on equipment to see what is available.

Tour the 'Treasures of Oakland'!

Oakland is full of historic and architectural treasures waiting to be discovered. This tour of "the other city by the bay" will be led by popular tour guide Craig Smith on Wednesday, November 3. The tour begins in downtown Oakland with wonderful architectural styles including a drive by the Pardee Home built in 1868, including its carriage house and water tower. It is a centerpiece of Oakland's Preservation Park Historic District, within a short walking distance of such downtown landmarks as Old Oakland, City Hall, and Preservation Park.

Some of the tour highlights include the Marriott Mural, Lake Merritt, Adams Point/Fairyland, Serene Park (a rooftop park), Jack London Square and Last Chance Saloon.

Lunch will be at Lake Merritt at Lake Chalet Restaurant. Lunch will include a mixed green salad with citrus, Asian pear, candied pumpkin seeds, goat cheese and sherry vinaigrette, your choice of entrée—Bourbon Glazed Salmon (Yuzu Butter Sauce, Cashew Relish) or Pan Roasted Chicken (Lemon-Rosemary Jus), or Vegan Farro Risotto (Wild Mushrooms, Seasonal Vegetables, Olive Oil, Garlic, Herbs), or Braised Shortribs (Red Wine Sauce). Dessert is a flourless chocolate cake with crème anglaise and candied almonds. Lunch also includes soft drinks, juice, coffee, tea, and iced tea.

The trip fee is \$110 per person and includes transportation, guided tour and lunch. A face mask is required on the bus, inside any building and in the restaurant while not eating or drinking. Public health orders may require proof of vaccines for access to building and restaurants. Public health orders are subject to change and may be more restrictive or less restrictive on November 3.

Registration begins on September 20 in Building B from 8:30 a.m. to noon, Monday through Friday or by appointment. The deadline for registration is October 8.

Facility reservation cancellations reminder

Many Board Recognized Organizations are delighted to be able to have in person activities once again. The mandate to wear a mask indoors may affect the group's decision to meet indoors or not to use a facility. Please let Community Activities know if you are not planning to use your reserved facility. Unless the reservation is cancelled, it is assumed it will be used. There is no need to set up a facility if it is not going to be used. Thank you so much for your help with this.

Welcome to another edition of Hi Neighbor!

This week we introduce you to more Villagers who moved here earlier this year.

Wave hello to **Arlene and Larry Versaw**, two Villagers who moved to Verano last February from Brentwood, CA, and previously, Arroyo Grande. Arlene is a native New Yorker with a B.A. in journalism and an MBA. She has worked as a journalist, business owner/operator, and a manager at the Diablo Canyon nuclear plant. Larry is a civil engineer originally from Michigan and attended the University of Colorado. They have a shared love of cards, hiking, camping and travel. Arlene also enjoys community service and activism, reading and watching sports while Larry also likes backpacking and golf.

Give a warm greeting to **Lydia and Luis Ben Curet**, who became Valle Vista residents in January after moving all the way from Albuquerque, New Mexico. Luis is a physician and enjoys baseball, movies and the opera, while Lydia enjoys gardening. Both are originally from Puerto Rico and also share many interests including tennis, pickleball, theatre and music concerts.

Help us say hi to **Margaret Kimball**, a new resident of Cribari who moved here last March from San Mateo. Originally from New Jersey, Margaret attended Seton Hall University in New Jersey and is a retired registered nurse.

Help us greet **Sonia and Harry Soin**, who moved to Village Verano this past March from elsewhere in San Jose. Previously they lived in Hong Kong for nearly 15 years. Born in India, Harry is a senior marketing director at a tech company. He has a Master's in power electronics from Toronto and a Bachelor's in English from Pune, India. Sonia was born in India and raised in Toronto. She has a marketing degree from Toronto and works as a professional private chef. In her spare time, Sonia enjoys gardening, cooking and learning new recipes, and hopes to learn how to quilt. Harry's interests include cruises and international travel, and as well as the stock market. Both Sonia and Harry like playing tennis, pickleball and bridge, and both moved here with the intention of picking up golf.

Say howdy to **Carmel and John A. Smith**, a couple of new Villagers who moved to Verano in May from Santa Rosa. Carmel was born in Cork, Ireland while John is from Worthing, England. Carmel attended school and secretarial college in Ireland, and is now retired after many years working in administration. John attended a polytechnic college and works as an IT consultant. In their spare time, Carmel enjoys socializing, keeping fit and taking photos while John's interests include motor racing, music and being a Lions member for 39 years.

Proposed Changes to Rule 1.01 Access to The Villages

Report in Brief: At the August 31, 2021, monthly meeting, the Board approved to publish for 30-day notice proposed change to Rule 1.01 Access to The Villages (specifically 1.01.2.E) prior to formal approval consideration of the change at the October 26, 2021, monthly meeting.

The purpose of the proposed change will give new residents 120 days, instead of 60 days, to attend an orientation without their barcode being deactivated. This will allow residents to attend either the first, or second, orientation after they become a resident.

Response to the proposed rule changes may be made by one or more of the following methods: 1) Participation in the discussion of the changes at the October 26, 2021, monthly meeting, 2) via e-mail (jmeadows@the-villages.com) with comments sent to the General Manager's office at least seven days prior to the October 26, 2021, monthly meeting, or 3) via written comments to the General Manager's office (Business Administration Building A) delivered at least seven days prior to the aforementioned board meetings.

Deleted text is in ~~strikethrough~~ text. Added text is in underline text.

2. Bar Code Stickers

E. When a bar code sticker has been issued, it shall be activated immediately. Bar codes issued to new residents will be deactivated if they fail to attend New Resident Orientation within 60 120 days. Persons who have made an accepted offer on a Villages residence may attend Orientation prior to close of escrow.

Don't feed the 'critters'

The Villages is known for its wide variety of wildlife. Many Villagers feel that being a good host necessitates feeding our four-legged or winged guests on a routine basis, which can be quite detrimental to our wild friends. Most wild animals naturally fear humans and keep their distance. When animals have access to food and garbage left out by residents they keep coming back for more. When this happens, they often lose their natural fear of humans and can become aggressive. To prevent that, residents should not leave out any food, including canned food, in a manner that may become accessible to our furry friends. Please comply with Villages Golf & County Club Rule 1.51.4, which states: "Feeding of waterfowl and other wild animals on a routine basis is prohibited for the protection of both residents and the animals."

Correction: Incorrect telephone number listed on The Villages Association (Condos) Annual Statements of Compliance Form. If you have questions regarding this form please call 408-223-4430. Thank you.

'Ask the CBOD' Response—September 16, 2021

The Club Board of Directors (CBOD) appreciates the need in having your questions answered. This column in *The Villager* will present the questions and responses.

If you would like to present your question, please email it to Julia Meadows at jmeadows@the-villages.com or you can put a written question in the drop-box in the parking lot of Building A.

Joe and Margaret Spatafore write:

Is the Club Board working on a 10-year plan to conserve water by replacing turf with drought resistant plants and rocks?

CBOD Response:

While there is no formal 10-year plan going forward, for the last 10 years the Club Board has aggressively pursued all available rebates to replace acres of our turf with drought resistant plants and rocks. The area just inside the front gate where the pickleball courts are now located was one such project in 2015 and netted The Villages hundreds of thousands of dollars' worth of rebates.

Recently, the Club received an opportunity for an additional 6,000 square feet of turf reduction rebates and has selected an area around the Administrative buildings for turf replacement. Plus, the Villages Golf Committee is currently preparing a major multi-year turf reduction project for the golf course.

As one of the largest users of rebates in the county over the past decade, our allocation has nearly been eliminated over the last few years. Without rebates, the cost of replacement is almost prohibitively costly.

When future rebates become available, the Club Board has already identified additional targeted turf reduction areas and is ready to act immediately after they become available.

Valerie Smith writes:

An engineer who lives in The Villages has done a calculation that our ponds lose between 60,000 and 120,000 gallons per month because of evaporation. If he is accurate, or close, we have a problem. The kind of problem that would be very hard to justify to residents who will be required to conserve and to the agencies that are now purchasing "emergency water" for Santa Clara County.

Also, I understand that the CBOD is discussing an expenditure of \$150,000 to repair a leaking pond. Is this really a consideration at this time of dire drought?

CBOD Response:

The CBOD is not responsible for all ponds on The Villages property, but we can address golf course ponds. All golf course ponds are filled with recycled water except for the pond at the #18 Green. The #18 pond is to be converted to recycled water when it is refurbished, starting near spring 2022. Our recycled water comes from the San Jose-Santa Clara Water Treatment facility. We have an obligation to accept the recycled water and make good use of it, as all of it cannot be discharged into the Bay.

While water evaporation remains an issue because of costs (we pay for the recycled water), it will not help with potable water conservation during a drought. Recycled water is also used to water the entire golf course except for the greens, and efforts are underway to consider this, as well. To date, recycled water is at 92 percent of budget.

The total expenditure for the #18 Green pond refurbishment has not yet been agreed to as the scope continues to be discussed and contractor quotes are still being received.

CLUBS & EVENTS

Senior Academy: Learn Argentinian History

By Tony Berg

Join the Senior Academy on Friday, September 24 at 2 p.m. for an overview of the history of Argentina, hosted by Villager Leo Riener.

The Argentine equivalent of the White House is the Casa Rosada, or pink house. It has been pink since 1868, and some may wonder why this was the choice of color for a building meant to project power, particularly in a society that in those days used to be fairly machista. During its 30+ years of civil war, in the first half of the 19th century, the two warring factions used to be represented by colors in a manner similar to today's political parties in the U.S. the Unitarians, white, and the Federalists, red. As a gesture of reconciliation, president Sarmiento ordered the façade of the government building redone with a blend of red and white paints, hence pink.

Argentine history is full of oddities of this sort, like the Argentine flag flying sovereign over Monterey, California, in 1818, for just one week.

Leo Riener is an electrical engineer by training, not a formal historian. He became interested in Argentine history only after he left the country 40 years ago. The Senior Academy is hosting Leo's informal, abbreviated history of Argentina, since colonization to the present day, on September 24 at 2 p.m. Do plan to join us by registering on our website at villagesa.org

Global Village: Spiritual Dimension of Leadership

By Pradeep Sonawala

Join the Global Villages Community Club to meet Bob Lapidus who will be speaking on the subject of "The Spiritual Dimension of Leadership." The event will take place in Cribari Conference Room from 7 p.m. to 8:30 p.m. on Wednesday, October 6. There is no fee to attend. All residents are welcome. Please wear a mask as per county guideline.

Bob will explore Spiritual Dimension of Leadership of great leaders: Abraham Lincoln, Mahatma Gandhi and Martin Luther King, Jr. He will translate their wisdom as guides for us in our personal challenges and struggles. He will present different dimensions of these leaders by way of enlightenment and wisdom to their followers and to future generation. His talk will be followed by a group discussion, as to how we can apply some of these spiritual and leadership practices in our day to day lives.

Bob and Arlene moved to the Villages six years ago. He is a native of the Washington, D.C. area. Currently he is Vice President of the "Martin Luther King Society club" and runs two study groups for the "Brandeis National club" including a course on Presidential Leadership as well as a Men's Dialogue Group in The Villages. Bob was a faculty member of the Federal Executive Institute in Charlottesville, Virginia, and an Adjunct Professor at American University and John Hopkins University. In his own business, he was consultant to organization in the areas of executive development, executive coaching, and organizational change. It is our privilege to have such an eminent speaker and longtime member of GVC lead us into a thought-provoking dialog where he has had years of experience.

Now's the time to consider rooftop solar

By Maxine Amundson, Sustainable Villages Club

The Sustainable Villages Club's goal is to help reduce greenhouse gasses with education and support for the adoption of alternative energy sources in The Villages. Rooftop solar is one program that reduces the carbon footprint.

The first rooftop solar installation was in 2013. Since then, Villagers have installed 31 systems in single family homes and 31 in Association villas. As of this month, two more Villa owners have been approved for new installations bringing our total to 64 Solar-Powered homes.

Installing in the next two years, the Federal Government is offering a tax credit of 26 percent on the cost of your system in 2021 and 2022. A reduction to 22 percent in 2023. Also, PG&E will pay you a reduced rate for every kilowatt hour (KWH) you pump into the grid over and above what you use for yourself. If you are interested in rooftop solar call me for answers to some basic questions. Contact Maxine Amundson at drmaxa@comcast.net or call 408-425-0614.

VMA: Help needed

Now that The Villages is back to a somewhat more normal life, are you looking for something to fill your time? The VMA is in need of volunteers. This wonderful organization is here to help those who live in our community, but it cannot exist without the help of volunteers. Particularly needed are people to deliver equipment and drivers to take Villagers to appointments. If you would like to volunteer all you need to do is go into the VMA office and pick up a volunteer application form. There is a place in the office to drop off the completed form. There are a number of areas where help is needed, and the application has places for volunteers to indicate what they are willing to do. Please consider giving time to the VMA!

FROM THE BOOKSHELF

By Sherle Frost

"Come Fly the World" by Julia Cooke: Glamour, danger, liberation: in a Mad Men-era of commercial flight, Pan Am World Airways attracted the kind of young woman who wanted out, and wanted up. Required to have a college education, speak two languages, and possess the political savvy of a Foreign Service officer, a jet-age stewardess serving on iconic Pan Am between 1966 and 1975 also had to be between 5'3" and 5'9", between 105 and 140 pounds, and under 26 years of age at the time of hire. Cooke's intimate storytelling weaves together the real-life stories of a memorable cast of characters, from small-town girl Lynne Totten, a science major who decided life in a lab was not for her, to Hazel Bowie, one of the relatively few Black stewardesses of the era, as they embraced the liberation of their new jet-set life. Cooke brings to light Pan Am stewardesses' unseen role in the Vietnam War, as the airline ferried young American soldiers into combat and added runs to carry weary troops to brief R&R stints. Finally, with Operation Babylift—the dramatic evacuation of two thousand children during the fall of Saigon—the book's special cast of stewardesses unites to play an extraordinary role on the world stage. Non-fiction, 387.7, Air Transportation, 2021.

"A Place for Everything" by Judith Flanders: Alphabetical order seems like an organizational Stonehenge: something that has always been, and always will be. So much so that few of us ever stop to consider it after we first learn to sing the alphabet song as children. Yet it is alphabetical order—its role in organizing our world—that allows us to access centuries of poetry, literature, scientific discovery, and humanity's most profound ideas. Without this innovative system, all such knowledge would lie in great unsorted stacks of books—unfindable, unread, unknown. And yet, remarkably, this is the first-ever history of alphabetization, from the Library of Alexandria to our iPhone contacts. Alphabetical order and its story have been shaped by some of history's most compelling characters, such as enthusiastic early adopter Samuel Pepys and dedicated alphabet champion Denis Diderot. George Washington was also a proponent, though many other Americans clung to older, less equal forms of classification: Yale listed its students by their family's social status until 1886. Today, the order of the alphabet rules—via libraries, phone books, reference books, even the order of entry for the teams at the Olympic Games—and yet it has remained curiously invisible. With abundant inquisitiveness and wry humor, historian Judith Flanders traces the triumph of alphabetical order and offers a compendium of Western knowledge, from A to Z. Non-fiction, 411, Writing Systems of Standard Languages, 2020.

"The Four Winds" by Kristin Hannah: "The Four Winds" is a deeply moving, powerful story about the strength and resilience of women and the bond between mother and daughter, set during the Great Depression, a time when the country was in crisis, when millions were out of work and even the land seemed to have turned against them. Texas, 1934. Elsa Martinelli had finally found the life she'd yearned for. A family, a home and a livelihood on a farm on the Great Plains. But when drought threatens all she and her community hold dear, Elsa's world is shattered by the winds. Farmers are fighting to keep their land and their livelihoods as crops fail and water dries up and the earth cracks open. Dust storms roll relentlessly across the plains. Fearful of the future, when Elsa wakes to find her husband has fled, she is forced to make the most agonizing decision of her life—fight for the land she loves or leave it behind and go west to California in search of a better life for her family. Fiction, 2021.

Senior Academy: *Frauds, Myths and Mysteries: Archaeology in Popular Culture*

Senior Academy is offering a two-session course, "Frauds, Myths and Mysteries: Archaeology in Popular Culture" presented by Tanya Rathke. These two sessions will be delivered by Zoom on Tuesdays, October 5 and 12, at 2 p.m.

Want to know what archaeologists really think of topics found on the Discovery Channel and National Geographic? Learn about the true mysteries of the past, and how frauds and theories of ancient aliens had a wider impact than just "bad science." Explore Ancient Egypt, including debates on pyramid construction and the curse of King Tutankhamun. Track how historians and politicians have shaped the discussions of the first inhabitants of North America. Finally, we will discuss the myth of Atlantis, and how archaeologists link ancient texts and new discoveries. This two-part course hits the highlights of archaeology in the media, focusing on the enduring impact of frauds, myths, and mysteries.

Tanya Rathke

Note: Pre-registration for this course is required and can be done through the Senior Academy website at VillagesSA.org. The fee for this course is \$10 for Senior Academy members, and \$20 for non-members.

Tanya Chiykowski-Rathke is an archaeologist who works in the U.S. Southwest and Northwest Mexico. Her research focuses on the cross-cultural movement of women by tracking changes in ceramic technology. This work uses geochemical sourcing methods and stylistic analysis to study the introduction and invention of ceramic traditions at the site of Cerro de Trincheras, in Sonora, Mexico. The wider theoretical focus addresses the role of prehistoric violence on migration.

Hiking Club: *Learn about Wild Mushrooms*

The Villages Hiking Club meeting at Foothill Center on Monday, September 27 at 7:30 p.m. will feature Villager Peter Holmes talking about his favorite hobby—finding wild mushrooms. All Villagers are welcome to attend. We will have a short Business Meeting to inform the members of our activities followed by refreshments and some socializing. Then we will hear from Peter Holmes.

Peter is an active Hiking Club member, but many villagers know him from his many other Clubs: Tennis, Pickleball, Brandeis, Sustainability, EV and Solar team, and Chair of the Verano Landscape Committee. He has collected wild mushrooms for almost 50 years, mostly in Michigan, but in many other areas in the U.S. as well. For many years he was an officer in the Michigan Mushroom Hunters Club and he now belongs to the Bay Area Mycological Society and the North American Mycological Association. He loves to cook and eat mushrooms and enjoys helping others discover our amazing and very diverse fungi.

The talk will, along with numerous photographs, cover what we are likely to see growing in our lawns, mulched areas, fallen trees, and trail sides. There will be information on poisoning of people and animals, especially cats, dogs, and horses. There will also be information about some less familiar edible mushrooms found in farmers markets and in our woodlands. Finally, there will be some tips about shopping for, preparing, and cooking our best edible wild and domesticated mushrooms.

There will be time for questions; and if you bring a photograph of any mushrooms in your yard, he will identify them for you. Please bring your mask, as they will be required inside Foothill Center.

Opera Lovers to return October 7

Our first opera "Madame Butterfly" will be presented on Thursday, October 7 at 1:30 p.m. at Foothill Center. Please note that future operas will continue to be on the first Thursday of each month. We've selected "Madame Butterfly," one of our favorite operas not only because of the beautiful singing of both Asian and Western singers, but because of the stunning setting in a Japanese village. It is the heart wrenching story of a beautiful young geisha who sacrifices family, her religion and ultimately her life for her American husband. It is a glorious production. The Opera Lovers is open to everyone. For Information call Bonnie Preston at 408-531-1513.

RELIGION

CATHOLIC COMMUNITY

Reflection on Sunday's Reading by Barbara f. Zahner, BCC: Remember "servant leadership"? Such leaders create a culture where others desire to follow. The tone is free of coercion and force. Instead, a sense of humility, generosity, and building community prevails. Jesus models Servant Leadership.

Commenting on today's readings Mary M. McClone CSJ, writes, "Today's selection from the Book of Wisdom clearly portrays the fate of prophets like Jesus. Their humble dealings with others create an implicit critique of authoritarianism and religious pretension." Whew! Clear words about hypocrites who sit in the place of honor and pull their religious symbols to demonstrate authority. While Jesus manifested Servant Leadership, His thick-headed disciples sought power. In Mark 9:33, Jesus asks, "What were you arguing about on the way?" Mark writes, "But they remained silent. For on the way they discussed, who was the greatest." I imagine Jesus' heart splintered with near despair observing the stiff-necked power seeking among His 12 closest friends. Silently, Jesus picks up a child—seen as "less than" in ancient culture. With empathy for the humanness of His disciples, Jesus reminds them, "If anyone wishes to be first, he shall be last and servant of all." (Mk. 9:35). How about you and me? Servant Leader or Stiff-Necked Power Seeker? Something to think about in our familial and community roles, as we enter a Season of New Beginnings.

COMMUNITY CHAPEL

'He Knows You'

By Pastor Bill Hayden

There are times in our lives when we find it difficult to communicate to others how we really feel. When people are asked, "How are you doing?" we may give them a curt answer, "Fine... How about you?" We try to conceal that which we are really struggling with in the roller coaster effects of loneliness and sadness. We become evasive to the very people that can and will be there for us due to the fear of rejection. After projecting ourselves to be on top of life's game for many years, we are sometimes ashamed to allow others to see our real struggles. Our pride can take us down a path of loneliness and isolation.

Eventually, people will have a breakthrough or a breakdown because we were created for relationships with God and with all creatures great and small. In creating man, God said, "It is not good that man should dwell alone; I will make him a helper suitable for him." So, that in itself, is an indicator that we need and thrive off of human contact.

Because of the negative, judgmental and increasingly difficult attitude of society we are not encouraged to share our true feelings. In some cases the impact of social media devalues the integrity of friendship. Sometimes you may discover that the very person you have trusted over the years turned out not to be a true friend. As a result, you have decided to suppress your feelings and concerns, in hopes of shielding yourself from further hurt. Consequently, you have joined the ranks of the walking wounded who have taken the same stance.

When you feel that you have things that you can't share with anyone, then share them with the One who knows you best. I leave you with a verse from Cleavant Derricks' song: "Have A Little Talk With Jesus":

Well, you may have doubts and fears, Your eyes may fill with tears, My Jesus is a friend, Who watches day and night; Well, He's gonna keep you safe, He's the answer to my every prayer; Just a little talk with my Jesus Gonna make it right.

1 Peter 5:6-7 NIV **6** Humble yourselves, therefore, under God's mighty hand, that he may lift you up in due time. **7** Cast all your anxiety on him because he cares for you.

Join us for Chapel each Sunday Morning at 10 a.m. in the Cribari Auditorium for worship, fellowship and refreshments. Also visit our Website at villagescommunitychapel.org or on YouTube for Sermon series.

EPISCOPAL

'The Joy of Psalms'

By The Rev. Julia McCray-Goldsmith

For the uninitiated, the Psalms can be forbidding. For every beautiful verse like "The heavens declare the glory of God; and the firmament proclaims his handiwork" (Psalm 19:1) we also have to contend with a verse like "May his children be orphans, and his wife a widow. May his children wander about and beg; may they be driven out of the ruins they inhabit" (Psalm 109:9-10) What to make of the 150 diverse songs and prayers of love and longing and anger that make up our Biblical Book of Psalms?

In a way, the Psalms are a mirror of our whole Biblical tradition, which offers us comfort and challenge and confusion, sometimes in equal doses. Which makes the Psalms a great place to start, if you are thinking of reading the Bible in its entirety (which we will do on zoom at Trinity Cathedral this year). Our scriptural tradition—inspired by God, as Episcopalians understand it—is rich in human experience and emotion, unedited for politeness. Which reminds us that we too can bring the whole range of our human emotion to God, unedited for politeness. Like other Biblical literature, we can count on getting more out of the Psalms as we study their purpose and context. But in the meantime we can always let their core message of compassion and acceptance sink in. "O Lord, you have searched me and known me... I thank you, for I am fearfully and wonderfully made..." (Psalm 139).

SHONIS

By Fran Schumaker

Last Tuesday was a beautiful day for golf. We had 29 Shonis plus two qualifiers come out to play. It was also Captain's Trophy play. The Shonis award a low gross trophy as well as a low net trophy for the month. In order to qualify for Captain's Trophy you have to have a permanent handicap, which means you have played 20 games. However, there have been some months when a Shoni, not having her 20 games, comes in with the low net for Captain's Trophy day. Since we do not want her achievement to be overlooked, and because we love to celebrate, we award a Newcomer's Trophy to her for the month.

Betty Hall

This month, both our Captain's Trophies were won by Betty Hall. She had a low gross of 32 and a low net of 19. Betty was quite excited and has just the place to display the trophies for the month of September. Congratulations, Betty and well done.

The flight winners for the rest of the play were as follows:

First Flight: Betty Hall - net 19, Delma Juarez - net 24, Andrea Alvarez - net 25

Second Flight: Kathy Tanaka - net 20, Julianna Walden - net 21, Lorrie Scott - net 22

Third Flight: Fran Schumaker - net 21, Betty Lanctot - net 23, Olivia Peacock - net 24, Tahera Khalil - net 24

Congratulations to all the winners on the day. The scores were really good and very competitive.

Everyone have a really good week. Take care and stay safe.

SWINGERS

By Marcy Boyles

We seem to be back in the "Swing" of things and lots of ladies were out today, September 7. It started warming up as we finished so lucky us. Some notables: There were two payout chip-ins today:

Cynie Jackson on hole 6 and Selma Chastaine on hole 2. Way to go! In my foursome, Mary Stowers had a loooooong chip in on 14 but, alas, didn't put her quarter in because as she said, "I never make chip-ins." Lesson learned here for all of us. No birdies this week.

By the time you read this, our Just For Fun tournament will have been held with a Cha Cha Cha format. Got that? Not me. I will report on all of the fun next week.

Are we talking Halloween already? Yes, we are. Our annual Halloween Tournament will be on October 26. More info in future columns but start looking for that winning costume. We will be having a luncheon this year because of our early 8:30 a.m. start. Stay tuned.

On a last note, many of us have been playing in exchanges with other clubs and what fun it is to explore other courses. Saratoga, Almaden and Stanford have challenged us all. As my partner from Saratoga said at our Fiesta exchange, "The Villages is good for the ego."

MEN'S GOLF CLUB

By Doug Moore (douglas.moore865@gmail.com)

Upcoming Events – The 51st Evergreen is upon us! September 23-25. Everything is in place for the Evergreen Invitational Tournament to kick off next Thursday with the traditional Horse Race, followed by two days of intense competition between 72 teams. Thank you in advance to our sponsors and 90+ volunteers, without whom this just would not happen. If you're playing, thank you for signing up, it should be a memorable three days. (Oh, let's not forget we're still under Covid protocols; so be prepared to wear a mask in and around the clubhouse and pay attention to social distancing requirements. Let's make this a safe and fun time for all.)

Hole In Ones: Have you ever had a morning when you just knew today was going to be your day... **Sheldon Rosenblum** had one of those days. He confidently strode onto the tee box of hole #6, the 6th of September, and took a mighty lash at his ball and sent it flying majestically through the air towards its target. It finally landed like a butterfly with sore feet, and released towards the flag, where it eventually came to rest at the bottom of the cup for a hole in one. Well done Shel, congratulations!

Eagles and Age Shooters for August:

Let's start with the Eagles for August. Yes, you have seen this name before: **Leo Ruth** marked his scorecard with an Eagle on 8-2 on hole #1 at Cinnabar. And on August 6, **Clay Wahlgren** got his ball to drop for an Eagle on hole #10. **Bob Dolci**, made it look so simple when he Eagle on #2 on August 11. On the 14th of August, **Dave Korb** got his ball to fall for an Eagle 2 on hole #13. And you all have seen this name before in this column, because he's a regular on the Eagle sheet and Age Shooters... **Dave Dimmick** scored a 3 on hole #16 on August 16. This is very cool guys! Congratulations to all of you gentlemen!

Age Shooters for August. Here's the list of usual suspects: **Tom Nedney** does this almost every month—74 on August 2. **Pres Miranda** seems to be a constant every month. He shot his age four times in August. And once again, **Dave Dimmick** shot a 73 on August 6. And oops he did it again, this time on August 22. (He just celebrated a birthday, which for him is like picking up another stroke). Congrats to you all!

New Members: Please welcome the following new member, **Mike Wu** to the Men's Golf Club. Be sure to introduce yourself, and ask them to join you on the golf course when you can.

The Villages MGC by-laws change: The Men's Club Executive Council intends to amend the Villages MGC by-laws. The amendment is as follows: Delete the following sentence in Article III Section D. "The General Chairman shall not serve in that capacity longer than a one (1) term during his (3) three-year term." Should you have a concern or a comment concerning this change, please contact Ken Peters via email (kengpeters@gmail.com) or speak to any member of your executive council sometime prior to the Wednesday after publication.

Golf Thoughts: The Ryder Cup

"It's not a pleasant feeling. It's like riding a roller coaster or bungee jumping. As it's happening, you're thinking, 'Why am I doing this?' When it's finished you're thinking, 'Oh, that was great!'" - Padraig Harrington describes playing in the Ryder Cup

If you're not a Men's Club Member, why not? You should be. Don't miss out on any of the upcoming tournaments and all of the fun.

18-HOLE WOMEN

By Barbara Travis

Bonnie Hagen has 26 putts to win low putts on Captains Trophy Day!

Photo by Phyllis Mueller

Indulging in a moment of nostalgia, I reflected on the 23 years I have lived in The Villages and belonged to the 18-Holes Women's Golf Association, I am struck by how much has changed but more so by how much has stayed the same. Our organization is over 50 years old beginning in 1968 with a small group of forward-looking, strong, determined women. How they struggled and persisted in their pursuit of becoming recognized as a legitimate women's golf club with all of the privileges afforded to the men. The passion for golf was all the motivation they needed to build an organization which protected the integrity of the sport and preserved the etiquette and proper decorum of the game.

Several names come to mind: June McCann, Katie Person, Ruth Davidson, Doris Heinrich, Pat George, Sue Delaney, Lois Mirch, Jean Figge, Betty Magowen, Jeanne Bettencourt and so many more. Today, we see the same enthusiasm, passion, and energy to continue to build on that foundation. As the baton is passed and a group of new residents move in, fresh ideas different from how it "used to be done" provide a "new look" to our organization, our focus, our tournaments and our events, it is both natural

and expected. Heart-warming and comforting, to see that the integrity of the game is very much intact and the passion for the sport is alive and well. That is as it should be.

Today was the first day of our Champion's Tournament. Interestingly, the dining room was quieter as discussion centered around missed putts, hitting errant shots into the water, etc. However, the spread of the top scores in the Champion Flight was a mere five stroke difference! Impressive playing indeed and two more play days to improve! There were no sweeps today so the rest of the field had a relaxed "just for fun" playday. Remember to sign up for the Hole-in-One Party on September 23. The Villages Challenge teams will be selected as well. Hope to see you there!

PICKLEBALL

By Anahid Gregg

One of the most important tips for successful Pickleball play is partner communication. One really important rule—do not hog the ball by running onto your partner's side of the court unless they call "Yours" or "Switch," and never, ever, run backward! Get into the habit of calling your ball even when it's obvious, as it will only make your partnership stronger.

Having said this, what about lobs? First rule—**never, ever, run backward!** We've had a number of falls recently—and running backwards can lead to a very bad fall by hitting your head.

To see a short but excellent video that demonstrates how to handle switching when a ball is lobbed, you can visit <https://youtu.be/IY2y1IYjv58>

This is the process that should be followed: A lob is hit to Player #2. If 2 can hit the ball by raising their paddle, that's fine. But if the ball is going to go over Player #2's head, they should call "**yours.**" The following should occur:

- **Never** run backward!
- Player #1 pivots and turns sideways, then runs to the back of the court to return the lob – **facing** the baseline.
- Player #2 pivots and goes mid-court.
- After returning the ball, Player #1 begins to return to the no-volley line, with both players moving back into position together.

No matter what—**never run backward!** If you (or your partner) cannot get the ball, simply say "Great shot!" It's never worth an injury to make a shot.

Note: It's OK to let it go too, as 60 to 70 percent of lobs attempted either will go too long or too short. If it goes in, say great shot!

PINSEEKERS

By Jack Bindon

A double report this week. I neglected to get the article to the Villager last week so this week we will show winners from September 3 and 10. Fourth place we had another tie between Larry Milligan, Jack Bindon and Ron Speer, all with a net 40 which was good for 1 point and \$1. Point totals have been posted as part of the Championship competition.

Now for September 10...First place, we had a tie between Dick Frey, Frank Garcia and Richard Petroski, all with net 36 worth 4 points and \$4 in sweeps. Second place we had another tie between Lee Thompson and Gary Holmquist, both with net 37 worth 3 points and \$3. Third place by himself was Tak Okabe with a net 38 worth 2 points and \$2. Men's Club Invitational – The Men's Evergreen Invitational will be held on Thursday, Friday and Saturday – September 23-25. This is our premier annual member-guest showcase event hosting 144 players. Note the 18-hole golf course will be closed on Thursday, September 23 after the 18-Hole Women's Association Club Championship; and will also be closed all day on Friday, September 24. The 18-hole course will re-open on Saturday, September 25 at 4 p.m. The driving range will be closed on Friday, September 24 until 10 a.m. and again closed at 2 p.m. for the remainder of the day. The driving range will also be close Saturday, September 25 until 10 a.m.

4-Paws Goose Control—In an attempt to mitigate the goose challenge we face on the golf courses and at The Villages in general, we have contracted with 4-Paws Goose Control, who are professional goose agitation specialists. They will be on the golf course starting this month, and again in October, November, December, January and February. The number of visits per week will vary depending on the month and best practices. Our goal is simple, to reduce the total number of geese on the golf courses and at The Villages. Here is the Mission Statement from 4-Paws: "The 4 Paws Goose Control provides a wildlife management service which humanely disperses Canada geese and wild turkeys from your property. This is achieved by pestering the birds by repetitive canine patrols. The birds recognize the dogs as natural predators, such as the coyote or fox. This type of wildlife control referred to as hazing, that does not harm the birds, but disturbs them to the point that they choose to graze, roost and nest elsewhere."

We are excited to once again enter into contract with 4-Paws. In September, they will be hazing the geese every Thursday afternoon with their special dog named Salty Dog who is awesome! He is my third favorite dog behind my two dogs, Rocky and Harley. We hope you all appreciate the efforts put forth by the VGC, Club Board, Scott Steele and Tim Sutherland to facilitate this contract.

Mark your calendars—New Villages golf event! Villages Couples Invitational on Sunday, October 24 – 12:30 p.m. Shotgun Start. Invite a couple from another Club and enjoy a great day of golf, fun, friends and camaraderie! Includes: Golf, Prizes and an Awards Banquet after golf. More specific information to follow...You don't want to miss this one-day member-guest couples invitational! Signups will start on September 27.

EPC: Why should you care?

By Arlene Versaw

Why should you care about the EPC? Because when the inevitable disaster strikes, we cannot rely on a city emergency response. Because we must take responsibility for our own safety. Because the best help in a crisis can be a friend or a neighbor.

There is a lot of talent and experience in The Village community. Doctors, nurses, firefighters, engineers, professional emotional support personnel and law enforcement live here. And they have signed up to help. An organized and dedicated cadre of volunteer residents stands ready and willing to direct emergency response within our gates. But for them to be effective, the rest of us need to play a role

- By learning about the EPC and what it does
- By understanding the process by which it will respond
- By cooperating fully with any response effort
- By helping your neighbors and friends when needed

We have the tools, the talent and the commitment to take responsibility for our welfare in an emergency. But we need you.

Villager publishes new book on COVID

Villages resident Meril R. Smith has published a new book, "Have We Found Our Better Selves?" written as a help to individuals and families as they continue their journey along a very uncertain COVID-19 path.

The book is filled with ideas and stories about caring people who have stepped up during the pandemic and have been a part of making their families, neighborhoods, and communities more caring places for all of us to live. As one reviewer said, "Everything becomes so much easier if there is a guide to help you relax. This book can be your guide to a better more productive time during the pandemic."

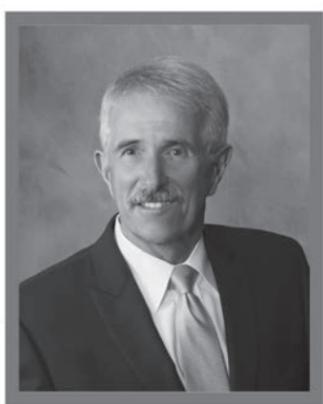

Meril's book can be found at Barnes and Noble, Amazon and other online bookstores. Proceeds from the book help fund the Adopt-A-College Scholarship Program at Edenvale School in San Jose.

Orange Whip – One of the Best Swing Trainers in Golf! The Orange Whip is a very useful golf tool for many reasons:

Get Stronger—It is weighted so it can help you strengthen your golf muscles.

Get Loose—Because of its weight and flexibility it is the best warm up tool in golf. Swing the Orange Whip 12 times in sequence – start slow but on swings 10-12 swing as fast as you can on the downswing and maintain your balance – you will be ready to go even if you haven't hit any range balls.

Swing Trainer—The Orange Whip is a useful swing trainer for a few reasons. First: swing it in sequence 6-10 times and it will automatically force you to synchronize your arms and body, which is a key aspect to a good swing. Second: because of its weight it is almost impossible to cast the club from the top and it forces an inside swing path. Third: when swinging in sequence it is impossible to lift the Orange Whip with your hands and arms so it forces a deep body turn back and through. **Plus we have the best price in town at \$89.99!** Come and get your Orange Whip swing trainer today.

Tips from the Pro—Strike 'em Down...Good tips to help you with your iron ball striking

There are several keys to good iron ball striking, but the simple fact of the matter is that any time your ball is not on a tee or in the sand, you want to contact the ball first, and then the ground after.

Each clubface has a specific degree of loft to it (21 degrees for a 3-iron up to 60 degrees for a Lob Wedge), so the club is designed to get the ball airborne if used properly.

Not a Shovel – You cannot try to lift the ball into the air.

Not a Hammer – You cannot try to "hit" the ball.

Is a Swing - You need to instead swing the club full circle, make sure the club-head brushes the turf, and then simply let the golf ball get in the way of the full circle swing...if you do this, you will hit the ball first and it will fly nice and high.

Here are a few thoughts to help you with your ball striking:

1. Set up with the ball in the middle of your stance, and your sternum a little left of the ball
2. Let your wrists hinge at the top...then unhinge after impact...then re-hinge over your left shoulder;
That's FULL CIRCLE
3. Stay Still – excessive upper body movement changes the swing radius and it's hard to have a consistent arc
4. Fat Shots are caused by hitting the ground before the ball – usually a result of moving your body or head back to the right excessively – keep your upper torso even with the ball
5. Thin shots are caused by hitting up on the ball with the shaft leaning back – continue turning through impact so that the shoulders and belly face the target when finished – top shot are caused by ceasing up at the ball and not turning

Let us know if these tips help. To sign up for a lesson with Scott, email him at ssteele@the-villages.com

EPC's language assistance team seeks your support

By Vera Buescher, EPC Recruiting Team

The Emergency Preparedness Committee is an organization within The Villages whose volunteers are prepared to provide neighbor-to-neighbor assistance in case of an emergency, such as an earthquake, fire, or other emergency.

Residents of The Villages come from a variety of countries, and for some people English may be their second language. In dealing with individuals in an emergency it could be critically helpful to utilize the skills of those residents who speak other languages should interpretations/translations be necessary for clarification of information. Nothing could be more frightening than to be unable to communicate with anyone in an emergency situation.

EPC is establishing a Language Assistance Team and will appreciate your help. The goal is to compile and maintain a list of individuals who are fluent in any other language(s) and who are willing to share their language proficiency to provide interpretation/translation assistance in an emergency as needed. These individuals would be working with other personnel (EPC, Public Safety, etc.) when interpretation/translation is needed. Language Assistance at all levels could be helpful, whether individuals are fluent in reading, writing and/or speaking other languages.

If you are fluent in other languages, we hope you will lend your support to this new team. A sign-up form is available. Should you have questions, please contact me at 408-531-9758 or verabEPC@gmail.com

Residents may post activities and notices on Next Door but must use the "Choose Neighbors: The Villages [only]" option.

Note: When placing classified ads for estate or garage sales in The Villager, you will need to attach proof of the permit to your Classified Advertising form.

We start/end at the picnic/parking area just past the entry kiosk, where outhouse/portapotties are available, but not water. Route includes: Six Bridges Trail, Olmo Fire Road, Goat Hill Trail, Mill Ox Trail and Jackson Flats Trail. Parts of the trail are exposed but most is under canopy. Wednesday, September 22 (Rambler Hike): Al Girolami (209-531-6553) will lead a hike on San Jose's well-known landmark, Communications Hill. No, we will not visit the Antenna Site, nor will we hike up the hill from the valley floor. Instead we will tour the urban hilltop community, which is known for its 360-degree views of our valley from its scenic overlooks. We will do a 3-mile loop on paved walkways with about 100 ft. of elevation including their Great Stairway. We will visit two of their parks where porta potties are available. We will meet at the Cribari Bell at 8:30 a.m and leave at 8:45 a.m. The distance from the start of the hike is 9 miles. Following, there will be an optional lunch at Popeyes on Monterey Rd to see how their Chicken sandwich compares with Chik-fil-a.

Friday, September 24: Mummy Mountain Trail (Long Hike) led by John Trudeau. This is a moderate hike: a 4 1/2 mile loop with total uphill ascent of about 800ft. It goes up to and along a ridgetop overlooking Coyote Lake on the eastern side of Harvey Bear Ranch County Park. The trail head is at the Mendoza Ranch entrance to the park, on Roop road. Driving distance is 32 miles. We will meet at Cribari center at 8:30am and depart at 8:45. Wear layers, and bring a light lunch or snack. The total trail is about 3/4 exposed to the sun and 1/4 in woods/shade.
