VMFC: ‘Mindset, Skillset, Get Off Your Asset’

During the Villages Men’s Fun Club luncheon meeting in the Clubhouse on Tuesday, June 21, Sallie Wagner, will speak via Zoom about M*S*G (Mindset, Skillset, Get Off Your Asset) which is your secret to moving from regret, through resistance that we all experience with change, into resilience.

If you are successfully discontent, living with regrets that you have missed out on your own life, and have been living out somebody else’s dreams and goals, you will learn simple ways to begin to leave those regrets behind as you build resilience in four areas of life: Physical, Emotional, Mental, and Social.

When you discover your unique M*S*G, your Mindset and Skillset will empower you to take action and

Last year I reported several broken sprinklers in Del Lago when some large truck drove over them. Last winter I again reported the same sprinklers were driven over three times. I also reported a broken sprinkler when I believe a resident drove over it last year at the corner of their driveway and again last winter when the same sprinkler was broken. Last year I reported several broken sprinklers in Sonata and again this year when the same sprinklers were broken. This spring I watched BrightView repair a broken sprinkler at my neighbor's house. In each case they fixed the sprinkler by burying it below ground level and in one case the sprinkler could not even break through the turf. Unfortunately this is not the correct depth to set sprinklers (it should level with the ground) and it causes other irrigation issues. More importantly in my opinion a professional irrigation technician should use swing or articulated risers (Google "swing riser advantages") to prevent future broken sprinklers and to easily set the proper height of the sprinkler. I wish BrightView would start doing this.

—Ed Logg

I see our existence like this: Humanity consists of slivers of spirit, each tucked into a unique "human envelope." Being slivers, each of us is a small part of a larger "whole." Often, tragic events bring our oneness to the forefront of our consciousness, and we share, assist and console one another, with no expectation of reciprocation. Sadly, outside of tragedy, we often hoard, exclude, sabotage and debase one another, with a fear that "your" gain is "my" loss. My fellow Villagers: do not look upon one another with suspicion and contempt, as some of us have done to my resident-friend whose envelope is a darker shade than mine. The pain in his eyes, as he told me of repeatedly being accosted by Villagers who assumed that he was not a resident, hurts me still. Here in The Villages, we have Public Safety to do the job of controlling access. Here in The Villages, let residents practice seeing inside the human envelope and welcoming the spirit that dwells within. One day each of our human envelopes is returned to the Earth and our sliver of spirit is returned to the whole. Let us practice for that day now.

ABOVE & BEYOND

I would like to thank the entire Bocci Committee who planned our Twentieth Anniversary Bocce Celebration. We had a wonderful time, and they organized many fun things in which we could participate. The food was delicious, and I hope if we have more celebrations, the committee will invite Ed Knott back to provide the entertainment. Many people got up and danced with the music and many had fun playing special bocce games. I just want you to know that many people have told me what a great day they had, and ALL your work was very much appreciated. The Silent Auction had wonderful, thoughtful items that raised a lot of money for our club, and your donations were very much appreciated by many.

BOARDS & COMMITTEES

FROM THE ASSOCIATION BOARD

ABOD Perspectives of the Valle Vista Defensible Space Project

Concerned residents of Valle Vista have raised the issue of fire safety for almost five years now. The Villages Association and Management have constantly focused on improving our defensible space and built that into our Landscaping Contract and annual maintenance plans. Much has already been accomplished. The Villages has a track record of years of high marks for maintaining fire safety around Valle Vista from reviews by City, County, and State fire agencies.

Meanwhile, Climate Change and a historic drought have continued to heighten concerns on removing fire fuels and improving defensible spaces right up to our homes. Improving fire safety isn't free, but takes investment in time, labor, and cooperation with our members to follow the Cal-Fire defensible space guidelines. While our focus has been more on the outer edges of zone 1 and into zone 2 (thirty to 100 feet), we will now shift to focus primarily on zone 1 (zero to thirty feet from the home).

Role of the Board

The role of the Association Board is to sort through many sources of sometimes incomplete and conflicting information to decide what is best for all our members. The ABOD utilizes "competent counsel" to help clarify key issues, determine the best landscaping implementations, and handle legal considerations.

Background

1) The Villages has a track record of years of high marks for maintaining fire safety (including around Valle Vista) from reviews by City, County, and State fire agencies.

2) Staff have provided intensive and comprehensive on-going efforts to manage our landscapers and maintain fire Fuel Safety zones based on Cal-Fire standards (primarily Zone 2).

3) The ongoing drought and effects of climate change have increased the numbers and intensity of wildfires across the State of California and in the Bay Area. The Villages had direct experience with a recent fire just a few miles away.

4) The increasing cost of property insurance due to carriers recovering from their losses on large fire and weather-related disasters in recent years. Insurance companies are paying increased attention to fire risks when underwriting new policies and sometimes declining to offer property insurance. Insurance costs have already doubled in recent years, and the FY23 budget projected another 50-percent increase, but the actual is closer to 75 percent.

5) New/Recent Information—Cal-Fire fire hazard maps have identified that Valle Vista is within a high fire hazard zone and abuts a very high fire danger zone. AB38 real estate fire hazard disclosures became required January 2021.

Defensible Space Zone 1 and Rosemary Removal Proposed—2021/2022

After consideration of many factors:

a) multiple requests from several Valle Vista DAC Chairs and the Valle Vista Fire Safety Committee (endorsed by three successive DAC Chairs)

b) a recommendation from a San Jose Fire Captain which was endorsed by State Senator David Cortese

c) historic drought, high fire danger season, and insurance considerations

d) constantly increasing landscaping costs

e) the Cal-Fire rating of Very High Fire Hazard just outside of the Valle Vista fences

the ABOD determined to focus on an expedited remediation improving Defensible Space zone 1 which includes rosemary removal and replacement.

In November 2021, the recommendation by a representative of the SJFD stated that:

"The current CAL-Fire Defensible Space standards (www.readyforwildfire.org) for wildland fire safety in a "very high danger zone" is not being met at this time. The current use of a highly flammable continuous rosemary bush as a buffer between the structures and the natural vegetation will not prevent spread from the natural vegetation to the structures in the event of a fast moving, terrain or wind driven fire. Fire resistant vegetation spaced apart with bare mineral soil would help prevent a continuous fuel path to the structures bordering the drainages.

The current maintenance plan in place provides limited protection from the event of a wildfire around the homes in Valle Vista District. The City of San Jose has not adopted this code but strongly recommends using the CAL Fire standard for defensible space. This standard provides additional measures to increase the defensible space for these homes. The use of highly flammable vegetation should be reduced as much as possible in these areas."

In December 2021, the ABOD considered an immediate start on zone 1 de-

fensible space including Rosemary removal, but with a limited size determined by the available funding in the VV Reserve Fund. The VV DAC requested, and the ABOD approved more time to consider a plan that would encompass the entire perimeter of Valle Vista which would require significant additional funding. A loan or Special Assessment would be required. After receiving communications from the VV DAC that residents wanted to proceed and were prepared to pay for the work, the ABOD held multiple executive sessions to develop a scope and bid for the project. Although pursued, no significant grants or outside funding were available at that time. The ABOD determined the best approach would be to pursue a Special Assessment vote, and if the vote failed, to return to the incremental approach of smaller annual projects.

Since the November memo from the SJFD to the Valle Vista "Homeowners District" (endorsed by the VV DAC), and Senator Cortese's endorsement in February, was at odds with the consistent SJFD approval for the Villages fire safety landscaping program, the ABOD requested GM Tim Sutherland to inquire to the SJFD for clarification. When the clarification eventually came, after voting preparations had begun, it stated that the rosemary was not an imminent safety hazard, but it did not walk back the earlier recommendation that the rosemary be removed and continued to strongly endorse the Cal-Fire defensive zones.

The March 2022 clarification:

[In the November memo] "...The SJFD provided guidance on additional action The Villages could take to further reduce risk from wildfire based on guidelines from the state. The SJFD did not intend to infer the current conditions are dangerous and need immediate mitigation..."

An "immediate mitigation" would have required the ABOD to institute a mandatory Special Assessment as an urgent safety issue. With rosemary removal still at a "recommended" level, only the timing for removal and replacement needed to be determined.

The response from the SJFD did not cause the ABOD to reconsider its decision to proceed with the Special Assessment vote. The vote, required by Association Governing Documents, would also allow VV members to determine the timing of the work based on their sense of the urgency, and the desire to avoid cost inflation of doing the work over years, as well as on-going fire risk. If the vote passed, the work could be funded and completed within months.

Because the Special Assessment vote did not pass, the ABOD is now determining the first increment of Defensible Space zone 1 work.

Over the many years that the requests for replacement of the rosemary ground cover have been made to and considered by the ABOD, project costs have almost doubled from early bid quotes. Each proposal up until now has been resisted as too expensive, or with hope that Villages-wide or outside funding would be available. It has always been the case that ABOD Governing Documents require each District (Village) to pay for all its own expenses, meaning Club funds are not appropriate or available, and no significant grants have been found. If smaller projects had commenced at the first discussions, a large amount of the zone 1 work would already been completed and at lower cost than doing the work now.

We are in the middle of a historic drought and at the beginning of an extremely high fire danger season. Inflationary cost increases and peace of mind indicate getting started as soon as possible now is the smart thing to do, and that is what the ABOD has chosen.

AB 38 – Fire Hazard Severity Zone Disclosures

AB 38 went into effect in 2019 and beginning January 2021 it required disclosures by sellers of property within high and very high fire hazard severity zones. The fire hazard disclosure is similar to Flood Zone and Earthquake Zone disclosures also required of sellers. This law was a response to heavy property damages and loss of life in recent major wildfires like the Paradise fire. The Association requested legal advice on this law and was advised that such disclosures are the sole responsibility of the seller.

Residents who are considering selling their homes are advised to review the disclosure requirements and the City of San Jose Wildland Urban Interface (WUI) maps (available online) to determine their current fire hazard status. As of May

Coyote reminder and tips

Coyotes may try to escort walkers out of an area to protect their pups or food sources when encountered on a trail or street. Humans may perceive this behavior as stalking, which is usually not the case. They may also view your pet as prey. To allow coyotes to be wild while keeping yourself and pets safe, please follow these pointers:

- Never feed coyotes—it is illegal to feed coyotes in most places. Feeding endangers your family and neighbors because it lures coyotes into neighborhoods.
- Keep unattended cats and dogs indoors or in completely enclosed runs, especially at night, and do not assume that a fence will keep a coyote out of your backyard.
- Accompany your leashed pet outside. Make sure you turn on lights if it is dark to check your backyard for unexpected wildlife.
- **Keep dogs on short leashes while walking outside; the Division of Wildlife recommends a leash no longer than 6 feet.**
- Keep noisemakers on hand to scare away coyotes that may enter your yard. Some examples of noise makers are whistles, horns or metal cans with small rocks or coins that rattle.
- Never run away or turn your back on a coyote.
- Do not allow a coyote to get between you and your pet or child—keep children close to you.
- Yell, clap hands, blow a whistle or rattle a can and try to make yourself look larger if you have a close encounter with a coyote.
- An empty soda can with pennies sealed with duct tape makes a very good noise maker when shaken.

Reminder to all small pet owners: A recent rise in coyote aggression has been seen with small dogs, most unleashed. **Please always leash your pets. Keep leashes short.** Coyotes will try to get between you and your pet if the leash is extended far enough. Coyotes are known to attack leashed dogs when the owner gets distracted. Please stay cautious and aware of your surroundings when cleaning up after your pet, talking to a neighbor, checking the mail, etc. Coyotes are opportunists and may make their attacks when you are not paying attention.

Carry a noise maker and always be alert. Use caution when walking past wooded areas, hiding spots between homes, and the golf course. They are widespread in The Villages and can truly be anywhere.

There is no way to completely eliminate coyotes from The Villages so always use caution when walking, especially with pets. Also, coyotes tend to be most active around sunrise and sunset. Pick different times for walks.

Please report all coyote sightings to Public Safety and Vector Control at the email addresses listed below.

Report Coyote Activity

(SRS) SENIOR RESOURCE SERVICES

'Dorothy, we're not in Kansas anymore'

Or in this case, Dorothy and her husband are not in Chicago anymore.

The couple has a lovely home near Chicago. They are now retired and have a good life except...the grandchildren are in Cupertino. And of course, mild winters are also in Cupertino. They decided to move to the Bay area and came out to check real estate and discovered they were not in Chicago any longer when it comes to the price of real estate.

They discovered The Villages and found the prices to be lower than other neighborhoods but still not cheap. They think they can sell their beautiful home in Chicago for \$600,000. They like a condo listed here for \$900,000. They both have pensions, they are comfortable about daily expenses, but do they want to take \$300,000 out of their retirement nest egg? And perhaps also need to pay taxes on a resulting portfolio capital gain or on the withdrawal from a 401(k) or IRA?

Their realtor explained they can use a reverse mortgage to purchase a home if one of them is age 62 or older. This could be a fantastic opportunity for a senior citizen to buy a new home, live mortgage-payment-free and keep their retirement portfolio for their future.

They are both age 73. On a \$900,000 purchase they would need to make a 56 percent down payment (\$504,000) on the condo. The remaining \$396,000 could be funded with a reverse mortgage. Thus, they would not have to tap their retirement portfolio and perhaps could even add a little to it from the sale in Chicago. Because it is a reverse mortgage, they will not have to make any mortgage payments until their home is sold or neither of them uses it as a primary residence. Of course, they will still be responsible for property taxes, HOA assessments and property insurance. (Note: The reverse mortgage loan amount is calculated on the home price and your age (if a couple, the younger borrower's age is used).

Using a reverse mortgage for a purchase can also be used by people moving within California and even by Villagers moving to a different unit in The Villages. If you know of anyone who might be in this situation, please suggest that they consult their tax advisor and talk with their family. The SRS office has a list of loan specialists who have obtained reverse mortgages for Villagers.

Note: The Senior Resource Services (SRS) office hours for drop-in assistance are Monday, Wednesday, and Friday from 10 a.m. to noon. The SRS office is in the Cribari Center across from the Post Office. You may also leave a message at 408-239-5253 or e-mail SRS at villagersrs@sbcglobal.net. The purpose of SRS is to provide education and general business and financial information. All assistance is free and confidential. You should ask your professional adviser about your individual situation.

Valle Vista Defensible Space...

(Continued from page 3)

25, 2022, those maps are indicating that Valle Vista is in a high fire hazard zone, and there is a very high fire hazard zone immediately just outside of the Valle Vista district on the southern and eastern edges (towards the Stables, Foothill Center, and the Upper Gardens).

Next Steps and Summary

The ABOD will approve the sequence of annual projects beginning with the initial Defensible Space zone 1 project for FY23. The sequence of projects will begin with the southern edge and then the eastern edge of Valle Vista areas which are closest to the very high fire hazard zones. Then work will continue in priority order to the northern edge, the western edge, and finally the interior.

Valle Vista residents will be safer with an established Defensible Space zone 1 around their homes, but there are never any guarantees. The project work will include replacing the rosemary with less flammable plants as recommended by the San Jose Fire Department. In response to the drought, rapidly increasing costs of water, as well as ever more stringent requirements for water conservation, the Board is consistently requiring irrigation conversion to drip systems on all new landscaping projects. Each incremental Defensible Space zone 1 project will include conversion to drip irrigation.

Notice of Proposed Changes to Association Policy APr 202 District Advisory Committees

At the April 26, 2022, meeting, the Association Board provisionally approved proposed changes to The Villages Association Policy APr 202 District Advisory Committees and to publish proposed changes for the required member comment prior to formal approval consideration. At the May 16, 2022, study session member comments were heard and discussed, and as a result the revised changes were again approved by the Board for publishing prior to formal approval consideration at the July 26, 2022, monthly meeting.

The purpose of the proposed changes to the procedure APr 202 were made to address confusion DACs have experience over just what their purpose is and limitation on their authority. Additionally, a financial and budget process has been added to explain how DACs propose new projects/services, how the Board responds, how the Board feeds back information to the DACs, and finally, how the DACs provide comments back to the Board.

Response to the proposed policy changes may be made by one or more of the following methods: 1) Participation in the discussion of the proposed changes at the Association Board of Directors June 28, and July 26, 2022, monthly meetings, 2) via written comments delivered to the Board through Maria Hernandez in the General Manager's office at mehernandez@the-villages.com.

Deletions are noted in ~~strikethrough font~~, additions are underlined.

- Monthly, attend Board meetings (by at least one DAC member).
When requested by Management Staff, attend meeting with Facilities and Landscaping personnel supervisors.
- The DAC chairperson or designee should attend the “All-DAC” or and Budget meetings with management Staff and the Board members.
- As requested by Architectural Committee (AC):
- Provide recommendations regarding villa and landscaping alterations common areas, and
- Review / recommend changes to AC Rules.

2. Financial

- Review District financial information to help residents understand the reports and the relationship to their HOA fees. If needed, request clarification from the Association Operations Manager (who can get additional information from the Villages Controller or Accounting department).
- Financial and budget information Q&A are published on the in-house Resident Portal for each Village. The DAC should review prior year’s Q&A’s when preparing new budget requests or before sending in new questions to Staff.
- During the Budget Development process, the DAC will have a once per year opportunity to request additional services, adjusted service levels, and new maintenance and landscape projects. The process will flow as follows:
 - The DAC will utilize the Association Project Requirements Form to make its requests. (Search the in-house Resident Portal for “Association Project Requirements Form”.)
 - If the DAC makes more than one request, the requests must be prioritized in a memo to the Board president at the time the Association Project Requirement Forms are submitted.
- It is not necessary for the DAC to fully understand the costs involved in either the services or projects at the time they submit the request.
 - Once submitted, the Board will conduct a first evaluation of the requests before sending approved items on to Staff.
- Note: There will be several steps where the Board might decide to approve or disapprove a DAC request. The DAC will receive feedback from the Board after each of its evaluations with opportunities to respond.
 - Staff will determine the costs of each service and project.
 - The Board will evaluate the proposals again after receiving cost estimates from Staff.
 - Approved items will be included by Staff in the draft budgets.
 - The Board will evaluate the requested items again after the first draft of the operating and reserve budgets are received.
 - ~~The DAC will receive feedback from the Board after each of its evaluations.~~
 - The DAC will have opportunity to respond to each Board project evaluation and to ask questions about the draft budget presentation up to two weeks after the feedback or presentation. Q&A will be published on the in-house Resident Portal.

3. Facilities

- Painting—For each paint cycle recommend to Facilities what paint colors are desired.
- Educate residents on Rules to avoid causing unnecessary building repair expenses (e.g., no pots on railings, no nails or items mounted on outside walls without AC approval, etc.)
- Make requests to Facilities through the Association Operations Manager.

4. Landscaping

- For each landscaping project scheduled, choose the plants from the plant selections presented by Staff.
- During the budget development cycle each year the DAC may recommend special landscaping projects for consideration by Staff and the Board.
 - Requests to Landscaping Staff shall be made through the Association Operations Manager.

5. Water Conservation

- Help residents understand what actions they can personally take to save water and what current Association rules are in effect on water usage.

6. Safety

- Help residents understand their vital role in protecting themselves and their neighbors as well as minimizing HOA insurance charges. Some areas that can have a significant impact on our insurance premiums are the following:
 - Maintain fire/smoke/carbon monoxide detectors.
 - Keep dryer vents, and bathroom and kitchen exhaust systems cleaned.
 - Follow Association Rules regarding barbecues, emergency power systems, and hazardous materials storage.
 - Use licensed contractors and follow building codes.
 - Correct water leaks immediately.
 - Support Emergency Preparedness Committee (EPC) activities by being familiar with the EPC organization and procedures.
 - Ensure that temporary holiday and other decorations installed by DAC volunteers are safe and follow the guidance of Staff as to whether they need to be modified for safety.

7. Communications

- It is recommended that the DAC, at least semi-annually, prepare a newsletter and distribute it to residents, ~~non-resident owners~~, the Board, and Management through Staff. Newsletters must be submitted in electronic format to Staff ~~for review by Management and the Board~~.
- All DAC communications, except for direct forwarding of Board content, shall contain the following disclaimer statement:
“The content presented within this [newsletter, website, etc.], unless it is an actual Association document, are the views of the authors and not to be interpreted as official positions of the Association Board.”

COMMUNITY ACTIVITIES

The following events are sponsored by the Community Activities Department. Please telephone 408-223-4643 for additional information.

Woodshop access notice

Woodshop access will begin transitioning to resident ID card access later this month. Please watch The Villager and Fastlane for information on the process and timeline.

For those currently qualified to use the shop, the transitions will include reviewing safety videos, taking a short test, signing new documents, and showing ownership proof of personal protective equipment (safety glasses, ear protection and face mask).

For new users, there will be scheduled in-person safety orientations by appointment through Community Activities. New users will also sign documents and show ownership proof of personal protective equipment (safety glasses, ear protection and face mask).

More information will be published at a later date. Please direct questions to Mary Tatum at 408-223-4643.

Ice Machine access update

Many residents wonder why access to the ice machine has changed since the pandemic. Originally, the ice machine was bought to take the burden from the Clubhouse to supply ice to events not being held at the Clubhouse. Over time the ice machine became available 24/7 to anyone on Villages property. In addition to resident groups or individual residents, it was common to see vendors, contractors, resident family members, friends and delivery people helping themselves to ice.

When facilities were shut down in March of 2020, the ice machine was cleaned and turned off. In the cleaning process a number of unsanitary items were found at the bottom of the machine. We had been always concerned about cross contamination and hoped the ice was used for cooling purposes only. Moving forward to the spring of 2021 and signs that facilities might be opening, we plugged in the ice machine and found the condenser had gone bad. Being an old machine, it was time to replace it. It was decided to look at machines with chutes to minimize hand contact with the ice. A chute model was installed.

The holding capacity of the chute model ice machine is about half of the bin type. To continue the practice of supporting Board Recognized Organizations, Board Appointed Committees and DAC social groups with ice for events, a reservation system was set up to access the ice machine. Any forementioned group is asked to contact the Community Activities office to reserve the ice machine for an event. Often an event will require all the ice and the machine might not be available. A key is needed to access the machine. One business day's notice is needed for a reservation.

We are looking for an ice machine that dispenses bagged ice for the community at large. With a large footprint, the space needed for this type of machine does not match what might be available. We continue to look at options. Meanwhile there is a small ice machine found in the courtyard of the Clubhouse near the Pro Shop available for resident use.

Foothill Pool notice

Foothill Pool will be closed to swimmers during Aqua Fitness classes in June, July, and August. Use of pool furniture on the deck will be available. Classes are held on Mondays and Wednesdays from 3:45 p.m. to 4:45 p.m. Please contact Community Activities with questions at 408-223-4643.

Jazzercise — a prescription for good health

By Barbara Tommaney

What if I told you that I could prescribe a program that may lower your blood pressure, blood sugar, and weight, and improve your sleep, bone and heart health? Would you be interested? Well, such a prescription really does exist—there is just one catch. You need to devote one hour three times a week to the program. I am talking about a physical exercise program called Jazzercise. The medical community agrees that physical activity makes us stronger, reduces our risk for falls, and in general slows the aging process. Now we hear that exercise helps protect our cognitive function. So you can't go wrong.

Come join us at Jazzercise right here in the Cribari auditorium. We meet regularly three times a week, Monday, Wednesday and Friday from 8:30 to 9:30 a.m. The cost is reasonable, just \$45 a month and the rewards to your health are substantial. If you have questions, email Cathy at km_Schlosser@yahoo.com. Oh, and you can try us out for free.

Time for Lunch Buddies again!

Join VMA for Lunch Buddies on **Thursday, June 23 at 11:30 a.m.** in the Clubhouse in front of the fireplace. If you're having difficulty getting out—for example, walking isn't easy, friends are far and few between, or it's just plain hard to make yourself go places—then Lunch Buddies is certainly for you!

Think about how nice it will be sitting with new friends, sharing something you're looking forward to, and enjoying lunch together. That lunch will be \$11 and will include a half sandwich, a small salad, ice cream, and lemonade, iced or hot tea, or coffee. It's as easy as 1, 2, 3 when you charge your lunch to your house account!

Make your reservation now by calling the VMA office at 408 238-4230 to reserve your spot. Don't forget to let us know if you need transportation, and, if so, a VMA volunteer will call you to arrange your pickup. Remember all over The Villages, masks are recommended but not required. Be vaccinated and boosted to be safe! See you on June 23 at 11:30 a.m. in the Clubhouse for Lunch Buddies!

What a great way to start the summer! The Village Dancers, a part of The Villages Music Society, Inc., will learn a fun Hawaiian choreography in June. We meet every Monday at 5:30 p.m. at the Cribari Auditorium. (No session on June 27.)

I, the group's director/choreographer, will lead you in choreographed routines so you are exercising your body and mind at the same time. Choreography links movements together to create a routine that includes formation changes and attitude. Each month we learn a different dance style giving members an opportunity to experience different music and movement. For more information check the Village Dancers page on the Music Society website at villagesmusicsociety.org/village-dancers. Or contact me at Bernice.Toy@gmail.com.

Don Mulford is a spiritual counselor at nearby With Grace Hospice. After graduating from Stanford University, he became an attorney, but as he describes it, "The suit didn't fit." He returned to theology graduate school to pursue his interest in God and "all things spiritual." After serving as a senior pastor in a Presbyterian Church in Richmond, California he took a "time out" to recover from terminal non-Hodgkins lymphoma from which he is now cured, not in remission. Don tells his saga of the 10 years with cancer with its many surprises in his book "Matchbooks in the Tunnel." He has been a hospice spiritual counselor/chaplain for 10 years which he has found is his calling as he experiences fulfillment in the powerful, meaningful conversations with the patients and their families. He counsels and speaks now with many adults who struggle with finding meaning, understanding, and peace in the spiritual side of their lives whether they are connected to a faith tradition or not. Please join Don as he shares his life experiences.

“Travels with George” by Nathaniel Philbrick: “Travels with George” grapples honestly with Washington’s legacy as a man of the people, a reluctant president, and a plantation owner who held people in slavery. At historic houses and landmarks, Philbrick reports on the reinterpretations at work as he meets reenactors, tour guides, and other keepers of history’s flame. He paints a picture of 18th-century America as divided and fraught as it is today, and he comes to understand how Washington compelled, enticed, stood up to, and listened to the many different people he met along the way, and how his all-consuming belief in the union helped to forge a nation. Art Film: The Life and Times of Frida Kahlo

By Roz Zinns

On Tuesday, June 21, at 2:30 p.m. in the Patio Room at Cribari Center, The Villages Arts and Crafts Association will present "The Life and Times of Frida Kahlo." Filmmaker Amy Stechler uncovered thousands of photographs, collected rare movie footage of the Mexican artist and her era, and interviewed friends, students and experts to create a profoundly new portrait of the legendary artist.

The film frames Kahlo's life in relationship to the historical and cultural influences that inspired her and defined the first half of the 20th century. It is an intimate biography of a woman who gracefully balanced a private life of pain and illness against a public persona that was flamboyant, irreverent and renowned.

The film looks at her ambiguous relationship with her contemporaries and to avant-garde art from Cubism to Surrealism to the Mexican Mural Movement. This is a 90-minute film with a 10-minute intermission.

By Barbara Tommaney

Mark June 17 on your calendar and be sure to join the Villages Jewish Community for a very special program and a sad farewell to our Rabbi Laurie Matzkin. Services are held at Foothill Center beginning at 7:15 p.m. The speaker for the evening is Karen Philbrick, Ph.D., Executive Director of the Mineta Transportation Institute at San Jose State University. Dr Philbrick was appointed to the USDOT Transit Advisory Committee on Safety in 2012 by the then Secretary of Transportation Ray LaHood and received consecutive reappointments by Anthony Foxx and Elaine Chao. She is particularly committed to advancing and retaining women in the transportation industry. Her presentation on June 17 is titled “University Transportation Centers: Paving the way to a seamless, equitable, transportation future.” We expect lively discussion of hot topics.

On a sad note we say farewell to our Rabbi Laurie Matzkin. The June service will be her last at The Villages. Rabbi Matzkin was selected to serve as Chief Jewish Engagement Officer at the Peninsular JCC in Forest City. We feel fortunate to have had Rabbi Laurie as our spiritual leader and we wish her well in her exciting new position.

EPISCOPAL

‘Threefold Love’

By The Very Rev. Julia McCray-Goldsmith

For those of us from liturgical traditions of church, Trinity Sunday is the third of three great feasts (remembrances) that bring closure to the fifty-day Easter season. And of course it’s a personal favorite, as I have ministered to three different churches named for the Holy Trinity. But that doesn’t mean I can easily explain one of the Church’s greatest doctrines! A friend who will be delivering the message for my installation as the 5th Dean of Trinity Cathedral (this Sunday) pleaded “don’t make me preach on the Trinity... all I ever preach is heresy!”

His complaint would be true of most of us clergy. It’s hard to preach and teach God as three-in-one without violating the rules of algebra, at the very least. But the doctrine of the Trinity is less a math problem than an invitation to prayer and contemplation. Consider questions like these: how would a threefold God express joy? And how might three equal persons invite us into a loving relationship with one God? While I don’t need exact answers to these questions—much less math problems to solve—I am grateful to the millennia of artists, dancers and musicians who have sought to shed light on the trinitarian equation from a right-brain perspective. “All-holy Father, Son, and equal Spirit, Trinity blessed, send us thy salvation; thine is the glory, gleaming and resounding through all creation,” wrote Gregory the Great in the 6th century. And the verses have resounded in song ever since.

Reminder: Articles are due by 4:30 p.m. Thursday, one week before publication

By Pastor Bill Hayden

I know that we are all experiencing brokenness over current events that are happening in our world. There are wars being fought over greed, pride, prejudice, power and control in all parts of the world. People are taking the lives of innocent victims because they have lost the sanctity of life and the fear of God.

God puts us in families because we are social creatures. He created us to need the comfort, assurance, validation, and support of the family system. Every family would have its own dynamics, uniqueness, strengths, and weakness. Choosing our own family has not been our choice. God determines that, not us and it has never been up for a vote.

As time passes and we mature, it becomes clear to us that people are people regardless of their ethnicity. We see good, bad and ugly traits in every people group. What is similar in people and families is that we can all make choices; good or bad. We can choose to build up or tear down.

Sad to say, we are all broken and imperfect people seeking to know the perfect God in an imperfect world. There are many things that contribute to brokenness in every family such as, abuse, divorce, separation, death and the list goes on. The blessing about being in families allows us the opportunity to discover each person’s brokenness and have compassion. Situations affect each person differently and they need to be accepted and understood. What affects you may not affect them in the same manner.

When we understand that and take it to heart, we can help the healing process for all the family with God’s help. If we fail to do so, that brokenness will spread like a cancer to the following generations.

The question is: Can you understand the need to cover each other with love, acceptance and forgiveness while allowing each person to grieve befitting to them? From this day forward, allow the past to be just that. Each new day presents an opportunity for healing going forward.

John 13:34-35 NLV 34 *I give you a new Law. You are to love each other. You must love each other as I have loved you. 35 If you love each other, all men will know you are My followers.*”

Join us in the Cribari Auditorium at 10 a.m. when Pastor Bill will deliver his Sunday Morning Sermon Message to you, then enjoy fellowship afterwards with some coffee, cookies with friends. Please visit our Villages Community Website at Villagescommunitychapel.org for more information.

CATHOLIC COMMUNITY

‘Trinity Sunday’ (Jn. 16: 12-15)

By Irene Groot

St. Augustine (354 - 430 A.D.) was a North African philosopher noted for his wild life and brilliant mind. At age 31 he abandoned his wicked ways and was baptized. Thereafter, he devoted himself to becoming one of the church’s greatest theologians and a great Catholic saint. Augustine was deeply interested in the doctrine of the Trinity that is the foundation of the Christian religion, i.e., its belief that in the oneness of God are three persons, Father, Son and Holy Spirit, each truly distinct from one another, yet all three equal, uncreated, and eternal.

Augustine told the story of one day walking along the seashore thinking about the Trinity. He saw a small child running back and forth using a shell to carry water from the ocean to pour into a small hole that he’d dug in the sand. Augustine came up to him and asked what he was doing.

“I’m going to pour the entire ocean into this hole,” the boy replied.

“What?” said Augustine. “That is impossible, the sea is so great and the shell and the hole are so little!”

“True,” the boy said. “It would be easier and quicker to draw all the water out of the sea and fit it into this hole than for you to fit the mystery of the Trinity and God’s Divinity into your little intellect; for the Mystery of the Trinity is greater and larger in comparison with your intelligence than is this vast ocean in comparison with this little hole.” Then, the boy disappeared.

Afterwards, Augustine did not stop searching the Scriptures for all Jesus had revealed about the Trinity and what others had foreshadowed or explained. He spent 16 years preparing the work he titled, “On the Trinity.” But Augustine studied with humility, with the knowledge that despite his formidable natural intellect, augmented by the gifts of faith, wisdom, and understanding he’d received through Baptism and Confirmation, the Trinity exceeded the capacity of any human intelligence to fully comprehend. Augustine could only pursue his inquiry in the manner of St. Ephrem who said, “I revered what lay hidden and meditated on what was revealed... My intellect took wing and soared upward in awe as it perceived the splendor of the doctrine, not as it really is, but insofar as humanity is granted to comprehend it.”

The most common Catholic affirmation of the Trinity is the Sign of the Cross (“In the name of the Father, and of the Son, and of the Holy Spirit”) that is part of all its public and private prayers. Over the centuries, saints and scholars have pondered the Trinity and added their insights. None expressed a more intimate relationship with the Three Persons than the young Carmelite nun, St. Elisabeth of the Trinity. Her spirituality is encapsulated in her famous “Prayer to the Trinity”, a profoundly beautiful summary of Catholic Trinitarian spirituality. It begins, “O my God, Trinity whom I adore, help me to become utterly forgetful of myself so that I may establish myself in you, as changeless and calm as though my soul were already in eternity...” (See the rest online)

PINSEEKERS

By Jack Bindon

It is truly feeling like summer. Our weather has been a constant clear and warming. We are consistently been fielding 20 signups and scoring has been great. This is the first effort of the next season and the guys are off to a great start... especially with their putting. More about that later.

Our weekly winners are the following: First place went to John Mueller for his net 34 which earned him \$4 and 4 points. Second place, we had a three-way tie between Leighton Horio, Bob Iacopi and Don Lee, all with net 37 for \$3 and 3 points. Third place we had another three-way tie between Frank Garcia, Martin Hoek, and Larry Chin. All had a net 38, good for \$2 and 2 points. In fourth place, rounding out the winning group, we have Dick Frey who had a net 39, good for \$1 and 1 point. Folks, that is a large group of winners and a great start of the new season. In spite of the fast greens, our guys are bunched together in the June putting contest, with Leighton leading the pack with only 14 putts. Several others were not far behind, out by only 1 or 2 putts. In review of the records I have been keeping, as a group, our putting has shown a definite improvement over this last season. Keep up the good work guys. Keep the 22nd of this month on your calendar for the annual meeting. New Officers will be elected and the lunch is on the Pinseeker Treasury. Details will be forthcoming.

In line with the election of new officers, if there is a spot that interests you, President, Vice President, Secretary, Treasurer and Event Planner, please contact the nominating committee of Leighton, Lee Thompson or Doug Canepa and make your wishes known.

18-HOLE WOMEN

By Phyllis Mueller

Can it be June already? Graduations, weddings and of course beautiful weather for golf! Just ask Jungwha Kim who shot an 84 with a 17 handicap and Sachiko Coleman who had 29 putts on a day where the flag was in places we have never seen before! What about Helen Varenkamp with three birdies. They all seem to be able handle the course with ease.

June also is the month of our upcoming Invitational and Gloria Landry and her committee are ready to go and are also tying up some last minute projects. Mark your calendars for June 23 and 24. Clean your houses for your guests and hone your game! Our donations have been over the top to help this Invitational run smoothly! Be sure to see a program to find out who supports us. In turn we will support them. **Golfing Away in Margaritville** will make you want to order a drink as our committee just did last week!

Partnership Eclectic is off and running with Geri Wilk and Cathy Struck at the helm. Be careful not to have Donna Quartaro attest your card as I did. I was accused of being disqualified but Donna reminds us her initials really stands for "Dancing Queen."

Birdies today: Janelle Salvatierra #14, Helen Varenkamp #1, #2, #6. Lyn Strong #17, Camille Giuliobari #8, #11, Emily Li #2, Pam McCarthy #7, Judy Rodriguez #4, #6.

Chip-ins: Camille Giuliobari #8, Geri Wilk #18, Kay Gray #10, Kerry Besmehn #1, Diana Flanigan #12.

Remember to rake the sand traps after use and shake the sand off your shoes!

Jungwha Kim wins June Captains Trophy!

Sachiko Coleman has 29 Putts!

TENNIS TALK

By Sherry Benz

In 2016, I was on the court with Kathleen Holt for the first time in several decades. We had played tennis together at Courtside. Kathleen was a very good player, but had drifted toward golf (which she is also very accomplished at), but we convinced her to get back into tennis. She came with a racket that had been in a closet for many years, holes in the soles of her tennis shoes and a grip that was so degraded that it left a gooey black mess on her palm.

This memory caused me to think...when is the right time? The right time to re-string your racket, re-grip your racket or retire your favorite tennis shoes?

Well, you may have heard the rule of thumb that says you should re-string your racket as many times per year as you play per week. So, if you play three times a week, you should re-string about three times per year. However, here are some other clues that will help you know when to re-string a racket:

- **The appearance of the strings:** If your strings are fraying, they are starting to come apart and you're not going to get as much spin or power when you hit the ball. It's time to re-string.

- **The sound when you hit the ball:** If you notice that the sound is not normal when you hit the ball, it may be time to re-string.

- **The feel when you hit the ball:** You may notice a dull or dead feeling when you hit the ball. You might feel like you have to hit the ball harder just to make it go the same distance.

How about your grip? The grip is the part of the racket that we use the most but care about the least. Missing a shot because your racket slipped is a consequence of not taking care of your grip. It is recommended that you change your grip about 3 times per year. It is recommended that you change your overgrip much more often.

Tennis shoes? If your traction is compromised or, after playing you feel more soreness than usual in your ankles, knees or lower back, your shoes have likely passed their expiration date. Different models have different lifespans. Lightweight shoes sometimes are not as supportive or padded and tend to wear out more quickly, while heavier, more stable, cushioned shoes are often sturdier and provide longer wear. How often or aggressively you play can determine if you need to replace your shoes every few months or once a year.

So, get your racket (including your grip) in shape and your new shoes ordered – just in time for the Mixer tournament on Friday, July 15 at 5 p.m. Watch your email for more information.

MEN'S GOLF CLUB

By Doug Moore, douglas.moore865@gmail.com

The MGC 18 Hole Summer Open Scramble and Annual Picnic: It's this weekend, guys... it's finally here.

Evergreen Invitational Update from Rich James: A big thank you to all the members who have signed up for this year's **Evergreen Invitational Tournament**. We are officially a sell out and are now taking waitlist entries. As in past years, teams have dropped out so being on the waitlist has led to many playing opportunities. Entry forms are still available on the Men's Club website and the Pro Shop. And thanks to all our sponsors and team members for making the Evergreen the premiere golf event for our Villages community.

Golf Thoughts: A golfer drove his tee shot onto an anthill. After many swings he demolished the anthill, but still had not hit the ball. At this point one of the two ants still alive turned to the other ant and said, "If we're going to survive, we'd better get on the ball!"

Also, remember to visit our website at villagesgolfers.com for the latest Men's Golf Club information.

SWINGERS

By Wendy Ledamun

We had a "bye" from regular sweeps play this week. Instead of competing for first, second, third and fourth place in our respective Front- and Back-9 flights, we just played for fun while enjoying another beautiful day on the course! Kudos to Cynie Jackson, Joyce Mukuno, and Sachiko Coleman for birdies on #11, #4, and #7, respectively. And, Laura Swenson made her day even better by chipping in on Hole 18. Congratulations, Laura.

Since there's a dearth of news this week, I thought I'd give you a brief history on the origins of "bye" in sports!

In sports, *bye* refers to a team automatically advancing to the next round of tournament play without competing and *bye week* refers to a scheduled off week for a given team. The term is not related to *goodbye* but is instead believed to be an alteration of *by*, as in the team is "standing by" to play later, or "bypassed" while other teams play. One early sport to feature a bye is coursing; the *b-y-e* spelling is likely influenced by an existing term from cricket in which a wicketkeeper misses a ball.

You may wonder what the heck is coursing? According to citations dating from the 1840s, one of the first sports on record to make use of something called a *bye* is **coursing** (the pursuit of a running game with dogs that follow by sight instead of by scent). A dog that ran a *bye* would run its course even though it did not have a designated opponent, often due to there being an odd number of competitors. The odd dog would be required to run, however, to ensure it ran the same number of races as the other competitors in the field--and, presumably, so that it would not later have the advantage of fresh legs. Now you know! Perhaps we should call our bye days "coursing" outings!

"Bye" aside, you still need to post your score!

IRONMEN

By Bill Travis

The Ironmen are in morning play, gathering every Thursday morning at 10 a.m. with a shotgun start, sweeps, birdie pool, and closest to the pin. This Thursday, June 2, 2022, the weather was perfect for some golf; clear skies and warm temperatures. We had another good turnout and the results are listed below.

The results of today's play are as follows:

First place went to Victor Hong with a net score of 24.

Second place went to Bob Pritchard with a net score of 26.

Third place there was a three-way tie among Roger Pyle, Lee Thompson, and Bill Travis each with a net score of 29.

Lowest gross score for the day: Victor Hong with a gross score of 29.

There were two birdies today: Jerry Juracich on hole 2; and Bob Pritchard on hole 6.

Closest to the pin on hole 5: Victor Hong at 13' 3" from the pin.

"Golf's ultimate moral instruction directs us to find within ourselves a pivotal center of enjoyment: relax into a rhythm that fits the hills and swales, and play the shot at hand – not the last one, or the next one, but the one at your feet, in the poison ivy, where you put it." – John Updike, American author, poet, and critic

PICKLEBALL

Pickleball Site Tips and Tricks

By Anahid Gregg

Did you know per The Villages rules, anyone who wants to use our courts must be registered? Registration is easy to do! The Pickleball Club uses two websites for different purposes. Here are some tips for residents.

The Club website is villagespickleball.org. This site has lots of information for members and residents alike. The first thing you will see is how to apply for membership. Just want to try pickleball? No worries – when filling in the application, just choose "non-member resident".

There are a number of "buttons" on the right side of the website with links to valuable information such as the Approved Paddle List (per the City of San Jose, only paddles listed there may be used at The Villages – a requirement to pass the sound study), information on how to register a guest, sign up for group play.

We use YourCourts.com as our reservation system. YourCourts is also where members can sign up for events such as Tournaments, Group Play, Drop-In play, and special events.

Need to look up a fellow members contact information? In YourCourts, you can click on Communications in the left frame and choose Member Directory. Enter the name in the search bar in the upper right corner to retrieve their information. This also works for the Tennis, Bocce, and Table Tennis Club YourCourts sites!

Next week there will be more information about the Club!

2022 Spring Smash Tournament

SHONIS

By Fran Schumaker

Last Tuesday was our monthly Birthday Game and again, as I seem to write every month, the game does not disappoint our Birthday Ladies in the sweeps results. Although, this month, I must admit, our Birthday Ladies, Jonna Robinson and Doris Bates, did not need any help from the game. They were "awesome" all on their own. Jonna had a fantastic game with a net of 18. When she dropped her worst hole for the game, her net was 13. Doris Bates had a triple header. She won in the pre-game putting contest, had the only birdie of the day on hole #2 and took home the whole \$6.50 birdie pot. Happy birthday, ladies. What a fantastic day of golf for the two of you.

Our other winners for the day were:

Pre-game putting contest: Doris Bates, Nancy Canepa, Jini Kang, Teddy Morse

Flight One: Doris Bates - net 18, Sue Park - net 24, Jan Ehrhardt - net 24, Ae Jung Sin - net 24, Pauline Robertson - net 24

Flight Two: Jonna Robinson - net 13, Nanci Newell - net 22, Johanna Bakker - net 23

Flight Three: Olivia Spada - net 22, Fran Schumaker - net 24, Deborah Strauss - net 25

Golf Cart Enter & Exit Poles in Place Now—We have installed on every hole of the 18-hole course two poles at the start of each hole and two poles at the end of each hole to define where all golf carts will be permitted to enter the fairway and exit the fairway of each hole. The poles will be white with a blue cap and will be very visible at 48 inches in height. The two poles will form a "gate" through which each cart will pass to enter and exit each hole at a defined location. (See picture.) Very simply, cart drivers will drive away from each tee box and then enter the fairway through the "enter gate" and then proceed to play the hole keeping the cart on the fairway as much as possible during tee to green play, and then will exit the fairway through the "exit gate" and proceed on the cart path to the next hole. Carts will still be permitted no closer than 30 feet from the front of the green surface, but when exiting the hole will be required to pass through the exit gate. To lessen wear and tear at any enter and exit area, the poles will be moved periodically to a slightly different location on each hole.

The goals of this initiative are as follows:

1. To create a constant and consistent flow of cart traffic onto and away from each hole
2. To mitigate cart traffic and resultant turf damage around the tees and green complexes
3. To eliminate the current need for excessive greenside stakes and roping to control cart traffic

Golf Course Trees—We are trimming a number of trees on the golf courses and removing over 20 dead trees from the golf course. With well over 925 trees on our golf courses, the upkeep and maintenance of trees is essential to the overall health and aesthetic appeal of the golf course. Please be aware of any tree crews trimming or removing trees and stay safe. If your golf ball enters any of these areas, be safe and play from a safe area adjacent to the tree crew without penalty.

Tips from the Pro—Speed is Key...Hit your Lag Putts Close

How often do you hit your approach shot inside 10 feet? Or even inside 20 feet? Yet when I watch our golfers practice putting, they rarely work on lag putts of 30 feet or more. Think of your last round of golf and how many putts you had of 30 feet or more. I bet it was at least nine. So practice lag putting as much as anything else in your game and you will shave strokes. Here are a few tips for lag putting practice...

Lay a bath towel on the green...line up 4 balls, one each from 25 feet, 30 feet, 35 feet and 40 feet, then roll the balls onto the towel and try to stop the balls on the towel. Do this from all four sides of the towel so you are putting uphill, downhill, right to left and left to right.

Putt with one ball from 30-40 feet and try to 2-putt everything.

Phil Mickelson Lag Drill...put a tee in the ground at 20 feet, 30 feet and 40 feet. Putt five balls from each tee and try to get all five balls inside the length of your sand or pitching wedge.

Let us know if these drills help. Let me know how these tips work. To sign up for a lesson, email ssteele@the-villages.com

Neighbors Helping Neighbors

EPC: Help us help you...

By Arlene Versaw

Ask any Villagers to define the mission of the Emergency Preparedness Committee (EPC) and you will get a whole host of answers. Some see it as an organization that will rescue them in an emergency. Others see it as superfluous, because they believe community response groups will save them. And there are some who see EPC for what it truly is—a resource to help you help yourself when disaster hits. Fire season is coming. We live in earthquake country. Our entire area is at risk and resources outside our gates are limited.

EPC is not prepared to direct a comprehensive emergency response, although it *can* assist. Nor are local emergency response teams going to be immediately available when an emergency arises. But EPC can help you prepare to respond to the first critical 72 hours. However, you have to do the work. You need to learn what to do and how to respond. So—help us to help you. That's what we are about!

You can start with taking advantage of First-Aid Training. It's a skill that you can depend on anytime, anywhere it is needed. For more information, follow this link to the EPC website: thevillagesepc.com

Display and Insert advertising price changes effective June 25, 2022

The Villager Display Ad Rates

The cost for an advertisement is calculated based on its area in Column-Inches – that is the number of columns wide, multiplied by the height in inches.

A single column is 1 7/8-inches wide, with two columns totaling 4-inches increasing by 2-inches per column for a total of 10-inches over 5 columns. The minimum height is 1-inch, and increments by 1/2-inches to a maximum of 12 1/2-inches. **The minimum total ad size is 2 Column-Inches** (1 column by 2-inches.)

Width (in columns) X height (in inches) = total column inches
Total column inches X corresponding amount (below) = ad price

The rates are as follows:

Size in column inches	Rate per column inch
2 to 20	\$12.00
21 to 40	\$10.20
41 to 65	\$ 8.40
